It is with great pleasure that I present to you the 2010 Annual Report of the Mississippi State Fire Academy. Two thousand ten was a tremendous year for the Academy, marked by major accomplishments that promote our commitment to excellence and our dedication to service.

We would like to thank you for your continued support of the fire service in the State of Mississippi and the State Fire Academy as we continue to be one of the nation's best fire and emergency response training centers.

Executive Director

From Executive Director Reggie Bell

The Mississippi State Fire Academy continues to assist you in all of your fire and emergency response training needs. The Academy is dedicated to providing cutting edge technology training to emergency responders from municipal, volunteer, and industrial fire departments within the state and the world. We currently offer eighty-six courses taught on-campus or in a field delivery format. We utilize twenty-nine full time staff instructors and fifty-seven associate instructors to deliver these courses. For the first time in the history of the Academy, student numbers exceeded 17,000 in FY 2009. 2010 saw a slight decrease in student numbers totaling 16, 557.

During the 2010 session, the Mississippi Legislature and Governor Barbour approved \$2.4 million dollars in general obligation bonds for the purpose of constructing four (4) new, state of the art classrooms on our campus. With these classroom additions, future courses will be developed and delivered. Also, current existing classes can be added to meet the fire service needs. We are also working with congressional members in Washington to secure additional funds to enlarge our on-campus dormitory.

Our goals are to improve the Academy's infrastructure and curriculum to be more conducive to the learning environment. In 2009, the Academy added a trench rescue & emergency shoring training prop, a 2009 custom pumper, and three (3) Katrina Cottages that will be used for fire code inspection and fire safety training. Development and revisions of current and new programs continue to insure current national standards are met and exceeded. The Academy, having accreditation with 10 NFPA standards consisting of 22 levels by the International Fire Service Accreditation Congress (IFSAC), began the process of obtaining accreditation on 11 NFPA standards consisting of 25 levels accredited by National Board on Fire Service Professional Qualifications (ProBoard) for dual accreditation. The Academy continues to secure grants on a state and federal level to upgrade our facilities and provide the highest levels of emergency response training available anywhere.

A program that has gained tremendous attention is our Fire Academy for Elected/Public Officials. This program is designed to be a fun day. It familiarizes the elected/public officials with the basic duties and operations of their local fire department. Elected/Public Officials from state, municipal, and county governments have attended this one day course. Fire departments have benefited from the experience gained in this course from their government leaders.

Tours of our training facility have become quite popular with local schools for field trips. We also welcome daycares, senior citizen groups and church groups, as well as both public and private schools. A brief education/information program is included along with the tour of the Academy's 85 acre facility explaining all aspects of fire fighter training. Information and scheduling is provided by the Academy's Public Relations Department. There is no charge for these tours.

**THE BEST FIRE FIGHTERS ARE NOT BORN FIRE FIGHTERS,
THEY'RE TRAINED AT THE MISSISSIPPI FIRE ACADEMY.**

Introduction

Mississippi Code Annotated 1972, Section 45-11-7 (1) creates the State Fire Academy for the purpose of training and education of persons engaged in municipal, county, and industrial fire protection and designates it as a division of the Mississippi Insurance Department. Section 45-11-7 (4) officially designates the Academy as the agency of the state to conduct training for fire personnel on a statewide basis in which members of all duly constituted fire departments may participate. Section 45-11-203 references that the uniform training standards for all paid fire fighters shall consist of the satisfactory completion of a training program administered by the State Fire Academy. Section 83-1-39 requires one member of the sheriff's department be the county fire investigator and to attend training at the State Fire Academy in arson investigation.

Constructed in 1975, the Academy campus is located on approximately 85 acres with nineteen buildings. Student course length varies from one day to six weeks. Students stay on campus in the dormitory, which has seventy-five beds, and are provided two meals a day in the cafeteria. Being a self-contained facility, our staff is responsible for all routine maintenance to the facility grounds, buildings, vehicles, and repairs to any equipment used for this upkeep and equipment/props used for student training.

The Academy is currently one hundred percent (100%) special funded through a tax of one half of one percent (1/2 of 1%) of the gross premium receipts of fire insurance policies sold in the state, and course collection fees. Personnel Services account for approximately 68% of the overall Academy budget, and that is an area that will continue to grow in order to keep the current level of professional staff for training and to maintain the status as the number one training facility.

The Academy began receiving federal grant funds during fiscal year 2001, and it is anticipated that this funding should continue. The grants are for specialized training in Terrorism Response, Hazardous Materials Incidents, National Incident Management Systems (NIMS) and National Fire Academy courses. The grants are one-hundred percent reimbursable in federal grant or sub-grant funds. Classes are taught on and off campus on a request basis at low or no cost to the departments around the state. The Academy continues to secure grants on a state and federal level to upgrade our facilities and provide the highest levels of emergency response training available anywhere.

The Academy continues to be one of the nation's most outstanding fire protection training centers and carries out its duties of serving and protecting Mississippians and visitors to our great state with tremendous skill and dedication. The innovative thinking, policy and procedures have resulted in many lives saved and safer communities, serving over 16,000 fire fighters from across the state. Mississippi fire service personnel represent some of the best-trained fire fighters in the nation. The training programs delivered at the Academy are dynamic in nature in order to provide technological support and to meet changing standards for all Mississippi fire fighters.

**OUR MISSION IS
"TO SERVE THE MISSISSIPPI FIRE SERVICE COMMUNITY AND THE WORLD
BY PROVIDING QUALITY EDUCATION AND TRAINING IN FUNDAMENTAL AND ADVANCED SKILLS
TO SAVE LIFE AND PROPERTY."**

OUR GOAL IS TO "MAKE A DIFFERENCE!"

Campus Improvements	\$ 6,280.50
Equipment Purchases	\$ 92,924.28
Resale Merchandise	\$ 37,316.05
TOTAL Expenses:	\$4,899,323.40

Ending Fund Balance June 30, 2010: **\$3,275,125.13**

MS Code Annotated Section 45-11-5:

Creation of a separate account known as the “State Fire Academy Fund” for the deposit of a tax of one-half of one percent (1/2 of 1%) of the gross premium receipts of fire insurance policies levied in the state.

MS Code Annotated Section 45-11-7 (1):

The State Fire Academy was created for the purpose of training and education of persons engaged in municipal, county and industrial fire protection.

The Academy is officially designated as the agency of this state to conduct training for fire personnel on a statewide basis to all duly constituted fire departments.

The Commissioner of Insurance may establish and charge reasonable fees for the training programs and other services provided by the Academy.

Grant Information

The Academy was able to receive grant funds directly from the Federal Emergency Management Agency/National Fire Academy. This grant was utilized to pay for statewide deliveries of programs offered by the National Fire Academy.

Grant Funds Received: \$19,385.61
Deliveries Offered: 45
Students Participating: 580

The Mississippi Office of Homeland Security under the MS Department of Public Safety, awarded grant funds from the State Homeland Security Program. This grant was utilized for on campus and field delivery programs that have been approved through the Office of Domestic Preparedness. Course offerings include Rope Rescue, Confined Space Rescue, Hazardous Materials Awareness/Operations, Hazardous Materials Technician, Trench Rescue, and NIMS courses.

Grant Funds Received: \$196,703.35
Deliveries Offered: 83
Students Participating: 1,362

The Mississippi Emergency Management Agency awarded grant funds from the Hazardous Materials Emergency Preparedness, under the U. S. Department of Transportation. This grant was utilized for the delivery of Hazardous Materials Technician I, Hazardous Materials Technician II, Hazardous Materials Awareness/Operations, and Fire Chemistry.

Grant Funds Received: \$139,563.12
Deliveries Offered: 28
Students Participating: 484

The Mississippi Liquefied Compressed Gas (LC Gas) Board of the Mississippi Insurance Department provided PERC grant funds for classes statewide to help emergency responders better understand the hazards of LP gases and prepare for the response to uncontrolled release of LP gas or fire.

Grant Funds Received: \$37,844.78
Deliveries Offered: 9
Students Participating: 400

Student Participation by Bureau

Student Hours by Bureau

Fiscal Year 2010 Students Trained

A group of firefighters in full protective gear, including helmets and jackets with reflective stripes, are standing in front of a large, intense fire. The scene is dimly lit, with the primary light source being the fire itself, which creates a hazy, orange glow. The firefighters are positioned in a line, facing away from the camera towards the fire. The overall atmosphere is one of a serious training or operational environment.

CERTIFICATION SERVICES BUREAU

- Courses are designed to provide career, combination, and volunteer fire departments a wide range of programs that conform to National Fire Protection Association (NFPA) standards.
- Most courses have obtained International Fire Service Accreditation Congress (IFSAC) and National Board on Fire Service Professional Qualifications (PROBOARD) designation.
- Course deliveries consist of campus, field, and contract programs.
- Administers the Candidate Physical Ability Test (CPAT) examination for the Mississippi Fire Personnel Minimum Standards and Certification Board (MSCB).

SPECIAL/INDUSTRIAL SERVICES BUREAU

- Programs are generally formatted around the subject of industrial incipient firefighting, technical rescue, and hazardous materials response.
- Most courses have obtained International Fire Service Accreditation Congress (IFSAC) and National Board on Fire Service Professional Qualifications (PROBOARD) designation.
- Most special course student fees are supported from federal funding grants.
- Specializes in special technical programs geared towards fire department training.
- Program delivery consists of on-campus and on-site programs.

Certified Advanced Rescue Specialist (CARS)

Confined Space Rescue

Confined Space Rescue: Modules 1-4

Emergency Response To Terrorism: Basic Concepts

Tommy Malone	

Organizational Affiliations

Much of the development and improvement of a successful training program comes as the direct result of dialogue established with other persons in the business. The members of the State Fire Academy staff are affiliated with many related organizations and thus have opportunities to share ideas. Following is a list of organizations staff members are involved in.

- International Association of Arson Investigators
- International Association of Fire Chiefs
- International Code Council
- International Fire Service Accreditation Congress (IFSAC)
- Mississippi Association of Governmental Purchasing and Property Agents
- Mississippi Association of Personnel Administrators
- Mississippi Association of Public Fire Safety Educators
- Mississippi Chapter of International Association of Arson Investigators
- Mississippi Fire Chiefs Association
- Mississippi Fire Fighters Association
- Mississippi Fire Service Instructors Association
- Mississippi Society of Certified Public Managers
- National Association of Fire Investigators
- National Fire Protection Association
- North American Fire Training Directors Association
