

Apply for a Georgia-Pacific Bucket Brigade Grant

To be eligible to apply, departments must be located within 30 miles of a Georgia-Pacific facility. Applications are reviewed by an independent board of civilians and firefighters. Winners are determined based on need, impact of the grant, and the uniqueness of the submitted story.

Since 2006, the Bucket Brigade program has contributed more than \$2 million to local fire departments through cash grants and educational materials. All applicants also receive a department membership to the National Volunteer Fire Council.

Fire departments in Georgia-Pacific communities can apply for a grant to help fund the protective clothing, equipment, and resources you need to be safe, efficient, and effective.

Applications due July 6, 2018.
