It is with great pleasure that I present to you the FY2019 Annual Report of the Mississippi State Fire Academy. Two thousand eighteen was a tremendous year for the Academy, marked by major accomplishments that promote our commitment to excellence and our dedication to service.

We would like to thank you for your continued support of the fire service in the State of Mississippi and the State Fire Academy as we continue to be one of the nation's best fire and emergency response training centers.

A handwritten signature in black ink, appearing to read "Terry Wages".

Executive Director

**From Executive Director Terry Wages**

The Mississippi State Fire Academy has been the foundation of fire and emergency services training for 45 years, providing the best available training and education to our state's 16,000 plus firefighters. As with any professional service, the fire service has grown and evolved into systems of mitigation and application of skills that transforms our communities toward overall public safety. As such, the how and what of training in our state is also required to evolve in an effort to meet the needs of our state's first responders. By utilizing both on campus, online and field delivery of the 90 plus courses we currently offer, we effectively reach approximately 15,000 students annually. These students make up response systems from volunteer, career and industry departments all across our state and nation.

Not uncommon to transitional education, our methods of course delivery require new and innovative ways that connect to students and provide an educational experience conducive to meeting the responsibilities of public safety, while maintaining consistency in standards of training. Using technology through online course delivery and application of hybrid programs, MSFA continues to offer a firm development platform that ensures adequate standards of training throughout our state.

Notwithstanding, increasing student contact and course delivery cannot maintain efficiency in effort without simultaneously promoting facility growth. Classroom space, dormitory availability and staffing remains a high priority within our overall vision of fire and emergency services training. Important to that success is our ability to evenly distribute and prioritize teaching capabilities that meet and exceed the expectation placed upon those we so passionately represent.

In addition, our commitment to training and education parallels a concerted effort to promote fire prevention and life safety throughout our state. By partnering with our sister agency, Mississippi Fire Marshal's Office, the message of fire prevention and life safety can be planned and delivered to our state citizens with consistency in message and success in outcome. By striving to reduce fire deaths in our state we can effectively provide our citizens with highly skilled responders that are equally knowledgeable about hazard mitigation and fire prevention.

The Mississippi State Fire Academy remains committed to providing training and educational excellence that is certain to "make a difference when it matters the most."

Introduction

**State Fire Academy Mission Statement**

To serve the Mississippi Fire Service Community and the World by providing quality education and training in fundamental and advanced skills to save lives and property.  
“Making A Difference When It Matters The Most!”

**Enabling Legislation**

MS Code Annotated Section 45-11-7:

The State Fire Academy was created for the purpose of training and education of persons engaged in municipal, county and industrial fire protection.

The Academy is officially designated as the agency of this state to conduct training for fire personnel on a statewide basis to all duly constituted fire departments.

MS Code Annotated Section 45-11-5:

Creation of a separate account known as the “State Fire Academy Fund” for the deposit of a tax of one-half of one percent (1/2 of 1%) of the gross premium receipts of fire insurance policies levied in the state.

Senate Bill 2362 of the 2016 Regular Legislative Session:

The above legislation changed the direction of the funding received by the Fire Academy to go to the state general fund effective July 1, 2016, in addition to diverting all cash in the account to the state general fund.

MS Code Annotated Section 45-11-7:

The Academy is designated as a division (sub agency) of the Insurance Department.

MS Code Annotated Section 45-11-203:

Within one year of employment, all paid full time fire fighters shall be certified as completing the mandatory training requirements administered by the State Fire Academy.

MS Code Annotated Section 83-1-39:

Requires one member of the sheriff’s department to be the county fire investigator and to attend training at the State Fire Academy in arson investigation.

**Philosophy**

The State Fire Academy is committed and responsible for the training and education of personnel engaged in municipal, county and industrial fire protection. This student body consists of career, volunteer and industrial fire personnel. The Academy has three training areas, which are 1) Certification Services 2) Extension Services and 3) Industrial and Special Services, which all focus on the Academy’s only function, which is training. All other areas support the staff and students of these training areas.

The Academy’s philosophy is to deliver quality training and instruction to the fire service/emergency response personnel of the State, while adhering to high ethical standards, promoting cooperation among staff with efficiency and integrity in their work while representing the Academy in a professional, courteous, and helpful manner at all times, and safeguarding the assets of the State. The Academy is committed to providing excellent service to its customers by providing training based on National Fire Protection Association (NFPA) standards as well as specialized courses not addressed by NFPA.

**Statewide Goal and Benchmark**

**Public Safety and Order**

To protect the public’s safety-by providing training to first responders/emergency responders.

The training students receive from the Academy provides them the skills necessary to save lives and property, which will in turn, lower the insurance fire rating which determines the premium rates on business and homeowner’s insurance.

Campus Facility:

Construction began in 1974, on the Academy campus in Rankin County, Mississippi. The campus is currently located on approximately 112 acres with more than twenty buildings. Courses are offered to students on or off-campus. Course length can vary from one hour to seven weeks. If on-campus, students may elect to stay in the dormitory, which has seventy-five beds, and they are provided two meals a day in the cafeteria. We currently have seven classrooms, and a dedicated student computer lab/library, in addition to the exercise area for students in the dormitory. Multiple training areas on campus include the following:

A Trench Rescue and Emergency Shoring Prop consists of approximately seventy feet of space for practice in emergency shoring techniques and to allow several scenarios for rescue operations. The prop was a generous donation of equipment, labor, and material from the Associated General Contractors of Mississippi-Municipal Contractors Division. The value of the prop is estimated at a quarter of a million dollars.

The Fire Research Building simulates a three-story residential structure with an attic, and a commercial structure with a basement. The building contains over 4,000 square feet of training space and is equipped with five computer controlled fire/smoke rooms with liquid propane gas fueled fire simulators, a Class A burn room, and a prop that simulates a couch fire with flashover capabilities. A four (4) story drill tower is attached to the burn area.

The original Burn Building has four levels and simulates residential and commercial buildings. This building is currently being utilized as a self contained breathing apparatus (SCBA) training area and collapse rescue training building. The SCBA training area utilizes mazes and artificial smoke for training. The collapse rescue area of the building simulates collapsed ceilings, walls, and floors.

The five-story drill tower provides opportunities for high-rise ladder, rope and firefighting operations. In addition to this tower, there is a communications tower erected for training high angle rescue purposes.

The live burn area consists of five large concrete pads as well as one 5,000 square foot airliner fuselage flammable liquid/LP gas burn prop designed specifically to prevent environmental contamination. These training areas include: a fifty foot flowing fuel fire (LP gas Christmas tree fire); LP gas tank fire; pump seal fire; twenty foot vertical tank fire with exposures; horizontal tank fire with an exposed small tank truck; and a three story evolution simulating a chemical processing plant fire.

The hazardous materials training site consists of a large train derailment simulation with eleven cars.

Two lakes are on campus. One is forty feet deep and is utilized for dive rescue training. The other lake is used as a water source for pump testing fire apparatus.

The confined space training site has over 9,000 cubic feet of enclosed area and a forty-five foot tower. The underground area includes vents and drains with several emergency entries/exits.

A forty-one by fourteen foot water vessel is dry docked for the instruction of offshore personnel.

An arson lab is used to build real life room-like structures with furniture to train in arson detection.

Five aircraft simulators are used in the instruction of aircraft rescue training. A landing gear simulator is at this site along with a side-wall aircraft section used in training. We are recognized by the Federal Aviation Administration as an approved training site for this region. Students from all over the United States attend these courses for the required annual training to be in compliance with the FAA regulations.

The Fire Education and Safety Auditorium will seat up to 300 people and is used for graduations and large meetings of the fire service.

New Classroom Building: Two of the classrooms are theatre style that will seat 50 each, while the other two classrooms are traditional with seating capacity of 30 each. Each of the classrooms has the latest technology for course instruction and wireless capabilities.

### Future Enhancements:

Progress is being made on the construction of a new training prop, Structural Collapse Rescue. The prop was designed by staff members and most work is being performed by staff. This prop will consist of material to simulate a collapsed building consisting of concrete, masonry, brick, wood and metal. The training will consist of rescue personnel digging, bracing, shoring, and removing victims of the collapse. Heavy machinery such as bulldozers, backhoes, and cranes will be utilized to remove the debris for the safe rescue training.

The National Natural Gas Association, along with Mississippi 811, and the Mississippi Public Service Commission and several energy companies, have begun the construction process for erecting the “Mississippi Safety City” on the Academy campus. The Mississippi Safety City is a one-of-a-kind, small scale city encompassing two acres that will serve as a training facility for natural gas operators, emergency response personnel, and industrial technicians. The city will contain homes, streets, streetlights and natural gas pipelines. Training will include classroom settings as well as real life simulations of natural gas eruptions and responses, and inspection techniques of gas systems. The estimated cost of this project is one million dollars, which will be donated by the sponsors.

Originally, the Academy was one hundred percent (100%) special funded through an insurance premium tax on insurance policies sold in the state, and course collection fees. Senate Bill 2362 of the 2016 Regular Legislative Session changed the direction of the funding received by the Fire Academy to go to the state general fund effective July 1, 2016, in addition to diverting all cash in the account to the state general fund. Additionally, grant funding is requested and often times received for training emergency response personnel on a statewide basis at little to no cost to the departments/counties.

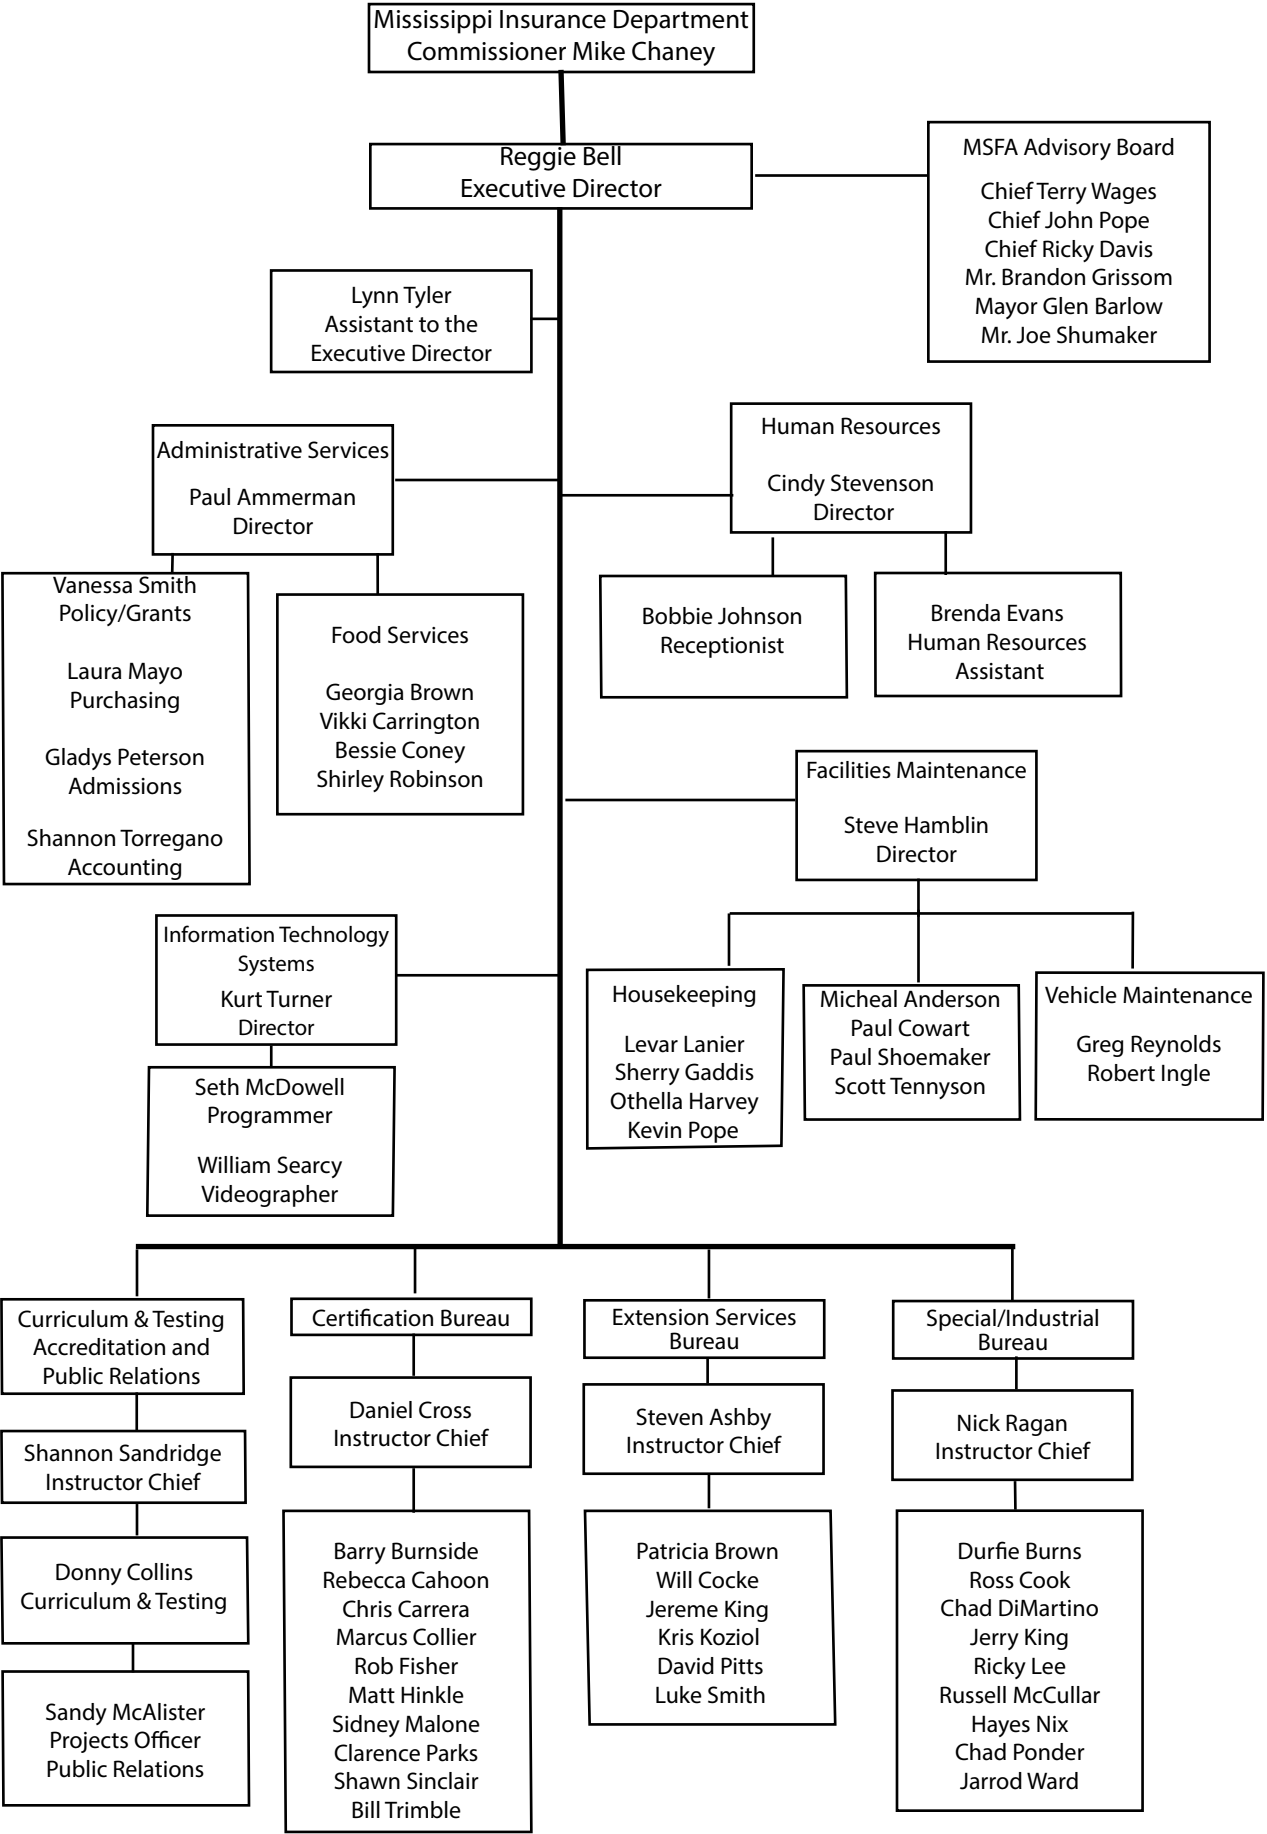

**Staffing:**

The Academy operates the facility with sixty-three (63) staff members in the following areas:

- Administrative
- Human Resources
- Minimum Standards and Certification Board Secretary
- Information Technology and Videography
- Building, Maintenance, and Vehicle
- Housekeeping
- Cafeteria
- Curriculum/Accreditation and Public Relations
- Instructional Bureaus–Certification, Industrial/Special, Extension Services

The Office of Administrative Services is responsible for the day to day operations of the Academy, student training records and course registration. Human Resources is responsible for staff recruitment, staff training and all employee benefits. The Secretary for the Minimum Standards Board is responsible for all functions related to Board activities. The Informational Technology and Videography Bureau is responsible for all computer systems for staff, the Learning Resource Center for students’ use, custom programming for staff, and videos of class training. The Building, Maintenance, and Vehicle Bureau is responsible for maintaining and repairing all of the agency buildings, equipment, and training props as well as all vehicles owned by the Academy, including Fire Apparatus. Housekeeping is responsible for maintaining the cleanliness of all the buildings, checking students into the dormitory, issuing linens, cleaning rooms, and assisting in grounds keeping when necessary. The Cafeteria Staff is responsible for serving two meals a day to students. The Instructional Bureaus are responsible for all areas of training offered while the Curriculum/Accreditation and Public Relations Bureau is responsible for course accreditation, testing, tours, fire education safety seminars, and publications.

**ORGANIZATIONAL CHART**

Fund Balance Financial Statement  
July 1, 2018 to June 30, 2019

Grant Information  
Fiscal Year 2019

State Appropriations House Bill 1589:	\$5,085,305
Grant Funding:	
Sub Grant Funds-Passed through Other State Agencies and Federal Grant Funds-Direct	\$ 443,176
Total Appropriations and Grand Funding:	\$5,528,481
Expenses:	
Salaries, Wages, Fringe Benefits	\$3,724,880
Travel	\$ 26,138
Contractual Services	\$ 557,504
Commodities	\$ 627,390
Equipment Purchases	\$ 180,720
Vehicles	\$ -0-
Resale Merchandise	\$ 26,245
Total Expenses:	\$5,142,877
Unused Funding as of June 30, 2018:	\$ 385,604

MS Code Annotated Section 45-11-5:

Creation of a separate account known as the "State Fire Academy Fund" for the deposit of a tax of one-half of one percent (1/2 of 1%) of the gross premium receipts of fire insurance policies levied in the state.

Senate Bill 2362 of the 2016 Regular Legislative Session:

The above legislation changed the direction of the funding received by the Fire Academy to go to the state general fund effective July 1, 2016, in addition to diverting all cash in the account to the state general fund.

MS Code Annotated Section 45-11-7 (1):

The State Fire Academy was created for the purpose of training and education of persons engaged in municipal, county and industrial fire protection.

The Academy is officially designated as the agency of this state to conduct training for fire personnel on a statewide basis to all duly constituted fire departments.

The Commissioner of Insurance may establish and charge reasonable fees for the training programs and other services provided by the Academy.

The Academy was able to receive grant funds directly from the Federal Emergency Management Agency/ National Fire Academy. This grant was utilized to pay for deliveries state wide of programs offered by the National Fire Academy.

Grant Funds Received: \$20,000  
Deliveries Offered: 5  
Students Participating: 35

The Mississippi Office of Homeland Security under the MS Department of Public Safety, awarded grant funds from the State Homeland Security Program. This grant was utilized for on campus and field delivery programs that have been approved through the Office of Domestic Preparedness. Course offerings include Rope Rescue, Confined Space Rescue, Hazardous Materials Awareness/Operations, Hazardous Materials Technician, Trench Rescue, and NIMS courses.

Grant Funds Received: \$250,000  
Deliveries Offered: 30  
Students Participating: 456

The Mississippi Emergency Management Agency awarded grant funds from the Hazardous Materials Emergency Preparedness Program, under the U S Department of Transportation. This grant was utilized for the delivery of Hazardous Materials Technician I, Hazardous Materials Technician II, Hazardous Materials Awareness/Operations, and Fire Chemistry.

Grant Funds Received: \$173,176  
Deliveries Offered: 18  
Students Participating: 453

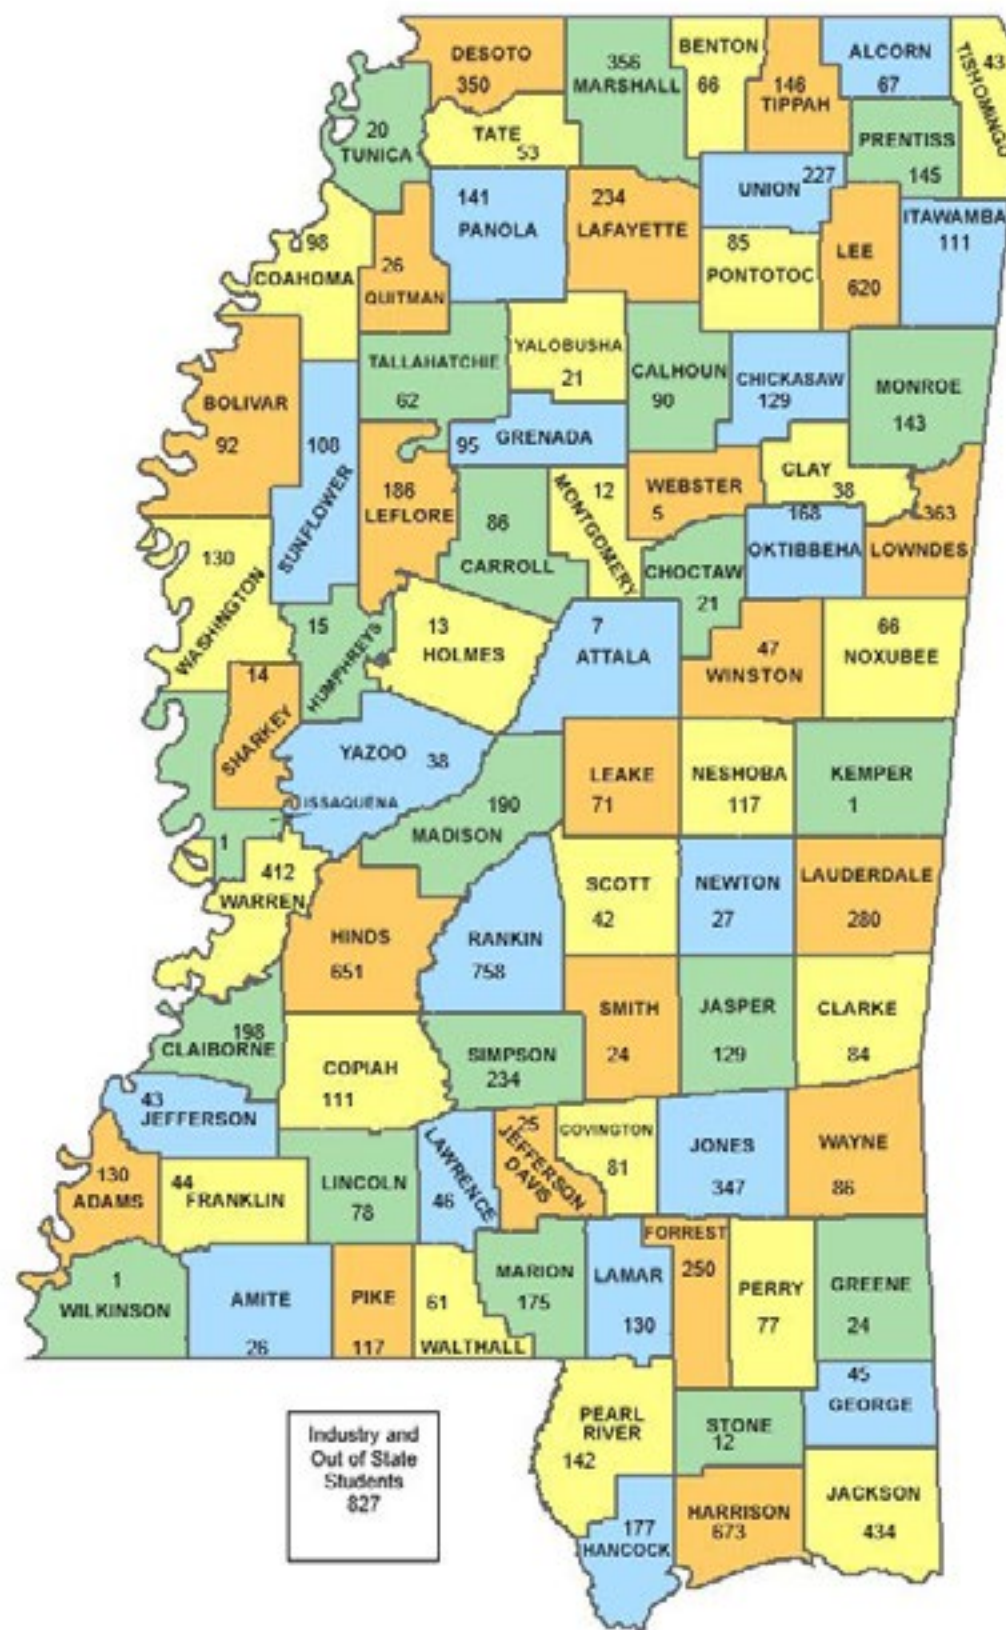

### STUDENT PERCENT BY BUREAU FY 2019

### Student Hours by Bureau FY 2019

## **CERTIFICATION SERVICES BUREAU**

- Courses are designed to provide career, combination, and volunteer fire departments a wide range of programs that conform to National Fire Protection Association (NFPA) standards.
- Most courses have obtained International Fire Service Accreditation Congress (IFSAC) and National Board on Fire Service Professional Qualifications (PROBOARD) accreditation.
- Course deliveries consist of campus, field, contract programs, and distant learning programs.

**Emergency Medical Care**  
**Engine Company Operations**  
**Fire Department Safety Officer 1521**  
**Fire Department Safety Officer 1521 Field Delivery**  
**Fire Fighter 1001-I-II**  
**Fire Fighter 1001-I-II: Field Course**  
**Fire Inspector 1031-I**  
**Fire Inspector 1031-II**  
**Fire Investigator 1033**  
**Fire Officer 1021-I-II**  
**Fire Officer 1021-I-II: Field Course**  
**Fire Officer 1021-1: Online**  
**Fire Officer 1021-II: Online**  
**Fire Service Chaplain**  
**Fire Service Instructor 1041-I-II**  
**Fire Service Instructor 1041-III**  
**Fire Service Instructor 1041-I-II: Field Course**  
**Fire Service Instructor 1041-I: Online**  
**Fire Service Instructor 1041-II: Online**

**Mississippi County Fire Investigator**  
**Mississippi County Fire Investigator: Annual-In-Service**  
**Mississippi Executive Fire Officer Program/Fire Officer 1021-III-IV**  
**Truck Company Operations**

## **EXTENSION SERVICES BUREAU**

- Most courses are designed to be presented to the volunteer fire fighter.
- Utilizes a cadre' of adjunct instructors to present training programs across the state.
- Administers the National Fire Protection Association (NFPA) 1002 Driver/Operator and National Fire Protection Association (NFPA) 1003 Airport Fire Fighter which hold International Fire Service Accreditation Congress (IFSAC) and National Board on Fire Service Professional Qualifications (PROBOARD) Accreditation.
- Liaison between the Mississippi State Fire Academy and the National Fire Academy.

**Advanced Volunteer Firefighter**  
**Aircraft Rescue & Fire Fighter Refresher**  
**Airport Fire Fighter NFPA-1003**  
**Annual National Fire Academy Weekend**  
**Back-To-Basics: Fire Company Fireground Skills Refresher**  
**Certified Fireground Resource Technician: Modules I-II**  
**Certified Volunteer Driver Operator Levels I-II**  
**Driver/Operator NFPA 1002: Aerial Apparatus Field Evaluation**  
**Driver/Operator NFPA 1002: Pumper Apparatus Field Evaluation**  
**Driver/Operator NFPA 1002: Pumper Apparatus On-Campus Course**  
**Fire Academy For Elected/Public Officials**  
**Fire & Life Safety Educator 1035-I-II-III**  
**Hazardous Materials NFPA 472 Awareness/Operations Module 1-2 (Non-IFSAC/PROBOARD)**  
**Inter-Departmental Courses (16)**  
**Introduction To Aircraft Rescue & Firefighting Techniques**  
**Liquefied Petroleum Gas Tactics & Live Fire Drill**  
**Managing The Rural Emergency Incident**  
**Mississippi Certified Volunteer Fire Fighter I - Module 1**  
**Mississippi Certified Volunteer Fire Fighter I - Module 2**  
**Mississippi Certified Volunteer Fire Fighter II - Module I**  
**Mississippi Certified Volunteer Fire Fighter II - Module 2**  
**Mississippi Chief Fire Officer Designation Program**  
**Mississippi Fire Chief Designation Program**  
**Mississippi Volunteer Fire Officer-I**  
**Mississippi Volunteer Fire Officer-II**  
**National Fire Academy Courses (6)**  
**Passenger Bus Rescue & Incident Management (Field Delivery)**  
**Public Information Officer NFPA 1035**  
**Regional Training Courses (23)**

## **SPECIAL/INDUSTRIAL SERVICES BUREAU**

- Programs are generally formatted around the subject of industrial incipient firefighting, technical rescue, and hazardous materials response.
- Most courses have obtained International Fire Service Accreditation Congress (IFSAC) and National Board on Fire Service Professional Qualifications (PROBOARD) accreditation.
- Most special course student fees are supported with federal grant funds.
- Specializes in technical programs geared towards fire department training.
- Program delivery consists of on-campus and off-site programs.

**Advanced Rope Rescue Workshop: Wilderness**

**Certified Advanced Rescue Specialist (CARS)**

**Confined Space Rescue Technician**

**Confined Space Rescue Field Delivery: Modules 1-4**

**Fire Service Management-101**

**Firefighter Intervention Rescue Survival Techniques (FIRST)**

**Fireground Leadership**

**Hazardous Materials Awareness And Operations**

**Hazardous Materials Technician Field Delivery**

**Hazardous Materials Technician-I**

**Hazardous Materials Technician-II**

**Incident Management of Hazardous Materials**

**Incipient And Structural Fire Brigade Training Programs: Modules I-V**

**Industrial Fire Fighter Refresher Training**

**Industrial On-Site Training Programs**

**NFA Chemistry Of Hazardous Materials: Fire Chem I**

**Rescue Refresher**

**Rescue Technician**

**Rope Rescue Awareness And Operations**

**Rope Rescue Awareness And Operations-Field Delivery: Modules 1-4**

**Smoke Diver**

**Surface Water & Swiftwater Rescue Technician**

**Tower Rescue Technician**

**Trench Rescue Technician**

**Vehicle Extrication & Rescue Technician**

## OTHER EXTENSION SERVICES

## FIRE PUMP REBUILDING CLASS

## Fire Apparatus Testing

## CURRICULUM & TESTING/PUBLIC RELATIONS BUREAU

The Curriculum/Testing Bureau handles all aspects of testing and accreditation for all of our certification programs. We currently have 24 levels of certification accredited by the International Fire Service Accreditation Congress (IFSAC) and 30 levels of certification accredited by the National Board on Fire Service Professional Qualifications (PROBOARD). The majority of our programs are dually accredited. All of our programs are based on National Fire Protection Association Standards.

Administers the Candidate Physical Ability Test (CPAT) examination for the Mississippi Fire Personnel Minimum Standards and Certification Board (MSCB).

Our facility is also available for public tours. Scheduled tours can be arranged for most types of educational, civic, and special groups. An age appropriate fire prevention/safety information program is delivered to each group along with a tour of the campus. There is no charge for the tours.

The Mississippi State Fire Academy Honor Guard was established in 2008 to serve the fire fighters around the state in their time of need, to help remember and memorialize any fire fighter that serves or served this great state as a token of our appreciation on a state level

# Adjunct Instructor Affiliations Fiscal Year 2019

The Academy contracted with the following individuals for course deliveries during the fiscal year.

- |                    |                    |
|--------------------|--------------------|
| Joseph Abercrombie | Tommy Malone       |
| Joshua Abercrombie | William S. Malone  |
| David Adams        | Curtiss Marbury    |
| Nathan Bell        | Justin Miller      |
| Justin Bouler      | Jerry Mills        |
| Gerald Briggs      | Vernon Morris      |
| Charles Brown      | Mark Moss          |
| Finley Brown       | Robert Parker      |
| Richard Bryant     | Leland Reed        |
| Robert Bush        | Nicholas Rivera    |
| Barry Collins      | Norris Robbins     |
| Phillip Cummings   | Michael Rutherford |
| Joshua Davis       | Scott Sanko        |
| Calvin Devore      | Lonagcio Smith     |
| Scott Dubuisson    | Raleigh Sprouse    |
| Juan Garza         | Charles Tate       |
| Michael Gettinger  | Scott Tennyson     |
| Ricky Gibens       | Steven Thomas      |
| John Grimes        | Michael Watts      |
| Patrick Homan      | Jerry Whirley      |
| George Horn        | Mark Whiteside     |
| Cody Keys          | Samuel Winchester  |
| Robert J. Kramer   | Charles Yarbrough  |

# Specialized Outside Professional Instructor Affiliations Fiscal Year 2019

The Academy contracted with the following professional instructors/organizations utilizing grant funding, for course deliveries during the fiscal year.

- Steve Bardwell
- Andrew Byrnes
- Melvin Byrne
- Carson Consulting
- Clark Consulting
- Phillip Davis
- David Matthew
- Johnny Purvis
- Jeannie Vaughn

# Organizational Affiliations

Much of the development and improvement of a successful training program comes as the direct result of dialogue established with other persons in the business. The members of the State Fire Academy staff are affiliated with many related organizations and thus have opportunities to share ideas. Following is a list of organizations in which staff members are involved.

- International Association of Fire Chiefs
- International Code Council
- International Fire Service Accreditation Congress (IFSAC)
- Mississippi Administrative Assistants Professional Association
- Mississippi Association of Governmental Purchasing and Property Agents
- Mississippi Association of Personnel Administrators
- Mississippi Association of Public Fire Safety Educators
- Mississippi Fire Chiefs Association
- Mississippi Fire Fighters Association
- Mississippi Fire Service Instructors Association
- National Association of Fire Investigators
- National Fire Protection Association
