Time: 6:30 p.m. for the lecture and live fire training.

Other: Full PPE is required. Students must furnish NFPA approved full protective clothing. Only students who attend the classroom presentation are allowed to participate in the live fire training exercise. Attendance is open to all public emergency response personnel and personnel directly associated with delivery, storage, or transportation of LP Gas.

Note: Due to Covid-19, SCBA’s will no longer be provided to students because of contamination and sanitation issues. Students are welcome to bring their own if available.

INSTRUCTOR CHIEF SHANNON SANDRIDGE
INDUSTRIAL ON-SITE TRAINING PROGRAMS

EMS CEU Hours: 14
Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.
Dates of Delivery: Available upon organizational request

The Academy has for several years offered training in an off-campus format. The types of programs the instructional personnel have provided throughout the state are:
- Rescue (High Angle, Below Grade, and Confined Space)
- Fire Suppression (Incipient and Structural)
- Hazardous Materials (Awareness, Operational, Technician, Specialist, and Incident Commander)
- Fire Officer and Instructional Techniques

These courses have been designed to meet the clients' needs and have often been mixed to provide a blend of information required of brigade personnel having multiple responsibilities within an on-site emergency response team. With planning and a needs assessment, which the Academy provides as part of its service to the client, many of the incorporated subject areas can be provided in an off-campus format. The Academy provides quality instruction through qualified personnel. We remain committed to providing customer service on schedule and maintain a constant level of service at a reasonable cost. The Academy asks that your organization consider our Industrial Services for your future training needs.

INCIPIENT AND STRUCTURAL FIRE BRIGADE TRAINING PROGRAMS

The following courses may be taken in a 40-hour format or individually, one at a time, dependent on prior scheduling commitments. Each module is designed to be eight hours in length, based upon 25 students participating in the field activities. Modules are often modified to meet the needs of those companies which seek additional or specialized training.

*This offering has been approved for EMS continuing education credit by the Mississippi Bureau of Emergency Medical Services.

Dates of Delivery: Contact Industrial Program Coordinator for dates of delivery and pricing.

MODULE I - CHEMISTRY OF FIRE/PORTABLE FIRE EXTINGUISHERS
Course Number IC 701

MODULE II - RESCUE/SELF-CONTAINED BREATHING APPARATUS
Course Number IC 702

MODULE III - FIRE EQUIPMENT/FLAMMABLE LIQUIDS/FOAM
Course Number IC 703

MODULE IV - FIRE PROTECTION SYSTEMS/INTERIOR FIRE ATTACK
Course Number IC 704

MODULE V - FIRE BRIGADE STRUCTURE/STANDARDS REVIEW/ICS

Course Number: EC 022-8C  
This course references NFPA Standard 1006

Course Hours: 8  
EMC CEU Hours: 8  
Approved for EMC CEU by the Mississippi Bureau of Emergency Medical Services.

Maximum Enrollment: 30  
Minimum Enrollment: 20

Course Fee: $1,030 - Group A  
$2,060 - Group B

Dates of Delivery: Contact the Extension Services Bureau for information concerning hosting this course in your community as a special course offering for your personnel.

Other: Host organization must provide one (1) school bus body to be used in outside skill evolutions. The bus will be used for extrication training and will be totally destroyed.

NATIONAL FIRE ACADEMY PROGRAMS

Through its courses and programs, the National Fire Academy (NFA) works to enhance the ability of fire and emergency services and allied professionals to deal effectively with fire and related emergencies. The Academy’s delivery system is diverse. Courses are delivered throughout the state with local fire training organizations and local colleges and universities.

TO REGISTER FOR NFA COURSE DELIVERED IN THE STATE OF MISSISSIPPI

No course fee, however, you must pre-register through the MSFA/NFA coordinator or local host contact to ensure reserved seating.

A National Fire Academy course attendance request application must be received by the Mississippi State Fire Academy’s Admission Office no later than 40 days prior to the scheduled class delivery if delivered on campus.

Classes are subject to cancellation or rescheduling by the NFA. Minimum and maximum enrollment policies may be enforced by the NFA.

$17 per night dorm fee for on-campus courses.  
If weekday, meals $12 per day extra.  
Meals will not be served during weekend classes.

NOTE: Students attending National Fire Academy courses must have completed IS-200 levels of training (or equivalent).

All locations and dates may be subject to change. Registered students will be notified of changes.

REGIONAL TRAINING COURSES

The Mississippi State Fire Academy hosts free regional training throughout the year in all Mississippi counties. Additionally, the courses listed below are available to all career and volunteer departments within the state. These courses are regularly reviewed and updated by the MSFA staff. For a current listing of regional classes being conducted in your area visit our website or to deliver any of these classes within your own department contact Extension Services.

*This offering has been approved for EMS continuing education credit by the Mississippi Bureau of Emergency Medical Services.

**EC 1003-12** Introduction to Aircraft Rescue & Firefighting | Classroom - 75% | Practical/Skills - 25%
--- | --- | ---
This course was designed for structural fire fighters to give a basic knowledge of how to safely mitigate an accident involving general aviation aircraft whether on or off airport property. Covering such topics as Airport Familiarization, Aircraft Familiarization, Safety/Hazards, Communications, Extinguishing Agents, ARFF Apparatus, Fire Suppression, Ventilation, Overhaul, Emergency Planning, and Strategic and Tactical Operations. Activities included.

All Fire Service Personnel | Course Hours: 12 | *EMS CEU Hours: TBD

**EC 066** Search and Rescue for Disaster Responses | Classroom - 75% | Practical/Skills - 25%
--- | --- | ---
This course is designed to provide emergency responders with search and rescue skills for responding to disasters such as tornados and hurricanes. This course will review several components in the NFPA 1006 standard and will give students the information needed to perform wide area searches.

Fire Fighter - I Level | Course Hours: 12

**EC 067** Fire Attack for the Modern Era | Classroom - 50% | Practical/Skills - 50%
--- | --- | ---
This course will review the newest research performed by NIST and UL. It will include lessons in critical flow rates, hose line techniques and nozzle handling techniques. This course will also review several tactical considerations for fighting structural fires in the modern era.

Fire Fighter - I Level | Course Hours: 12

**EC 153-1** Fire Fighter Essential Skills - I | Classroom - 10% | Practical/Skills - 90%
--- | --- | ---
This course is designed to enhance/refresh fire fighter skills. The course uses a section of the Mississippi Volunteer Fire Fighter I course that addresses the NFPA 1001-I standard. Subjects include: SCBA, Incident Command System, Portable Fire Extinguishers, Ropes and Knots, Response and Size-Up, and Forcible Entry. In addition to refreshing skills, the course may also be useful preparing new fire fighters for the Mississippi Volunteer Fire Fighter I course.

Fire Fighter - I Level | Course Hours: 12 | *EMS CEU Hours: 8

INSTRUCTOR CHIEF SHANNON SANDRIDGE
EXTENSION SERVICES BUREAU

EC 153-2 Fire Fighter Essential Skills - II
Classroom - 10%  Practical/Skills - 90%
This course is designed to enhance/refresh fire fighter skills. The course uses a section of the Mississippi Volunteer Firefighter-I and Mississippi Volunteer Firefighter-II course that addresses the NFPA 1001-I standard. Subjects include: Ladders, Search and Rescue, Ventilation, Water Supply, and Fire Hose, Nozzles, Streams, and Foam. In addition to refreshing skills, the course may also be useful preparing new fire fighters for the Mississippi Volunteer Fire Fighter-I & II courses.
Fire Fighter-I & II Level  Course Hours: 12  *EMS CEU Hours: 2

EC 153-3 Fire Fighter Essential Skills - III
Classroom - 10%  Practical/Skills - 90%
This course is designed to enhance/refresh fire fighter skills. The course uses a section of the Mississippi Volunteer Firefighter-I and Mississippi Volunteer Firefighter-II course that addresses the NFPA 1001-I standard. Subjects include: Salvage and Overhaul, fire suppression, vehicle rescue and extrication, and fire prevention and public education. In addition to refreshing skills, the course may also be useful in preparing new fire fighters for the Mississippi Volunteer Fire Fighter-I & II courses.
Fire Fighter-I & II Level  Course Hours: 12  *EMS CEU Hours: 4

EC 009 Mississippi Fire Fighter Safety
Classroom - 75%  Practical/Skills - 25%
This course is designed to allow students to focus on issues that affect them and their fire departments. It is not a course about general safety issues. Students are required to look at areas where they must take more responsibility for their safety and the safety of their department members. The course also covers the most recent fire fighter deaths in Mississippi.
Fire Fighter-I HI Level  Course Hours: 12  *EMS CEU Hours: 4

EC-FFCS-12 Firefighter Cancer & Cancer Survival Awareness
Classroom - 100%  Practical - 0%
This course is designed to help ALL responders recognize the dangers and focus on cancer awareness in the fire service. This course will cover general firefighter statistics, importance of maintaining PPE, and show different ways firefighters can help reduce cancer within their department(s). Created by responders for responders the ultimate goal of this approach is to train the entire nation’s responder community in their personal safety.
ALL Fire Service Personnel  Course Hours: 12

EC 096 Rapid Intervention Teams
Classroom - 25%  Practical - 75%
This course is designed to prepare fire fighters for “Operations” level RIT duties. It combines both “Awareness” and “Operations” level training for participants who have minimal experience in RIT work, and can be adapted to be utilized for students with various levels of RIT experience.
Fire Fighter-II Level  Course Hours: 12  *EMS CEU Hours: 4

EC 150-1 Engine Company Operations-Part 1
Classroom - 75%  Practical - 25%
This course is designed to give the engine company fire fighter the knowledge, skills, and abilities to function safely and efficiently on a fire scene. This class provides an overview of the duties expected on the fireground with an emphasis on safety. Part 1 of this course addresses: Apparatus Positioning, Rescue, Water Supply, and Initial Attack Lines. The course references the textbook Engine Company Fireground Operations, Third Edition NFPA, Harold Richman, Jones and Bartlett Publishers, ISBN-13: 978-07637-4495-3.
Fire Fighter-II Level  Course Hours: 12  *EMS CEU Hours: 3

EC 150-2 Engine Company Operations-Part 2
Classroom - 75%  Practical - 25%
This course is designed to give the engine company fire fighter the knowledge, skills, and abilities to function safely and efficiently on a fire scene. This class provides an overview of the duties expected on the fireground with an emphasis on safety. Part 2 of this course addresses: Backup Lines, Exposure Problems, Master Stream Appliances, Fire Protection Systems, and Overhaul. The course references the textbook Engine Company Fireground Operations, Third Edition NFPA, Harold Richman, Jones and Bartlett Publishers, ISBN-13: 978-07637-4495-3.
Fire Fighter-II Level  Course Hours: 12  *EMS CEU Hours: 3

INSTRUCTOR CHIEF SHANNON SANDRIDGE
EXTENSION SERVICES BUREAU

EC 001 Basic Rescue Operations Classroom - 70% Practical/Skills - 30%
This course provides classroom instruction in fire behavior, self-contained breathing apparatus, rescue, first aid, and ropes and knots. In addition, practical activities are included in using and maintaining SCBAs, search patterns, and first aid procedures.
Fire Fighter - I Level Course Hours: 12 *EMS CEU Hours: 8

EC 003 Fireground Support Operations Classroom - 50% Practical - 50%
This course focuses on the very important operations used in conjunction with fire attack procedures to achieve fire suppression and control. Classroom presentations include: Fire Behavior, Ventilation, Ladders, Salvage and Overhaul, Forcible Entry, and Power Tools. Demonstrations and simulations provide practical experience for the participants.
Fire Fighter - II Level Course Hours: 12

EC 045 Fire Service Rescue 101 Lecture/Discussion - 50% Classroom - 20% Practical - 30%
This course is divided into two sections - structure fire attack/rescue and an overview of subjects included in a rescue technician course. The first section includes a review of basic structure fire attack and rescue procedures. Group and individual activities include analyzing the need for rescue and removing a victim from a “burning” structure. The second section is designed to prepare the student to assist a rescue technician at a special rescue situation. Subjects include Confined Space Rescue, High-Angle Rescue, Hazardous Materials Incidents, Water Rescue, etc. This course references NFPA Standard 1001.
Fire Fighter - II Level Course Hours: 12 *EMS CEU Hours: 8

EC 007 The Fire Apparatus Driver Classroom - 75% Practical - 25%
This course is designed to address the everyday challenges of driving a fire apparatus. Subjects covered include: Fire Apparatus Inspection and Maintenance, Operating Emergency Vehicles, Positioning and Spotting the Fire Apparatus, and Recent Incidents Involving Fire Apparatus in Mississippi. Activities include basic operation of a fire apparatus (if allowed by hosting department).
Fire Fighter - II Level Course Hours: 12 *EMS CEU Hours: 6

915-M1 Apparatus Pump Operator Module 1: Basics Classroom - 50% Practical - 50%
Designed to present the fundamentals of pump operation, this course provides the student with the knowledge necessary to become an efficient pump operator. Covering such topics as Pump Design and Maintenance, Pump Types, Hydraulics, Fire Flow, and Pump Operation, this course prepares the student for the critical role of a pump operator on the fireground.
Fire Fighter - II Level Course Hours: 12

915-M2 Apparatus Pump Operator Module 2: Mobile Water Supply Classroom - 50% Practical - 50%
A course designed to cover water supply in rural areas where water shuttle is necessary. It covers many aspects of the use of mobile water supply including tanker design, water sources, delivery rates, shuttle techniques and operations. A demonstration utilizing local equipment provides a practical display of the concept.
Fire Fighter - II Level Course Hours: 12

EC 011 Hazardous Materials: Initial Response Classroom - 60% Practical - 40%
This course covers material outlined in NFPA 472 and OSHA 29 CFR 1910.120 for initial response and action in emergency operations awareness and operational levels. Classroom presentations cover Recognition and Identification of Hazardous Materials, Initial Response Procedures, Safety Zones, Personal Protective Equipment, and Decontamination.
Fire Fighter - I Level Course Hours: 12 *EMS CEU Hours: 12

EC 012 Automobile Extrication Classroom - 50% Practical/Skills - 50%
This course is an excellent guide to the basic methods of auto extrication, covering the subjects of scene safety and stabilization, patient care, and actual extrication techniques. The student is exposed to various methods and tools needed to perform an extrication. Hands-on practical demonstrations allow the students to utilize the local equipment in performing simulated rescues. A special thanks to the New Albany Fire Department for video demonstrations used in this course.

EXTENSION SERVICES BUREAU

EC 041  Training, Responding and Returning Home Alive  Classroom - 80%  Practical/Skills - 20%
Fire Fighter - I & II Level  Course Hours: 12  *EMS CEU Hours: 8
This course is not a typical safety and survival course. It is very interactive. This course allows the students to measure how much progress we (Mississippi fire fighters) have made in being able to survive the dangers of firefighting. It also allows students to look at themselves and determine whether they are part of the problem or part of the solution. NIMS issues are included in the unit addressing incident safety. Other subjects include Fire Department Risk Management, Vehicle Response and Highway Safety, Keeping Training Safe, and Our Survival Challenge in Mississippi.

EC 151  Understanding the Role of the Incident Safety Officer  Classroom - 50%  Practical/Skills - 50%
Fire Fighter - II Level  Course Hours: 12  *EMS CEU Hours: 12
This course is designed to give fire fighters the opportunity to learn about the responsibilities of the Incident Safety Officer and what fire fighters can do to support the function of the safety officer at all types of incidents. Students should have a thorough understanding of the Incident Command System (ICS). The course will allow great opportunities for departments to address previous incident safety issues and be proactive for possible future incidents.

EC 160-PA  Managing the Rural Emergency and Personal Accountability  Classroom - 50%  Practical/Skills - 50%
Fire Fighter - II Level  Course Hours: 12
This course is designed to merge the Incident Command System with the 2-in-2-out rule. Appropriate for career or volunteer departments in rural or urban settings, classroom sessions involve activities focusing on command responsibilities, staff position roles, and most importantly, fire fighter accountability.

EC 152  Strategies for Fire Fighter Personal Success  Classroom - 50%  Practical/Skills - 50%
Fire Fighter - II Level  Course Hours: 12  *EMS CEU Hours: 2
This course provides the company officer, or future company officer, with the basic leadership skills and tools needed to perform effectively in the fire service environment. The course addresses Ethics Use and Abuse of Power at the Company Officer Level, Creativity in the Fire Service Environment, and Management of the Multiple Roles of the Company Officer. The course can be especially useful for departments to prepare personnel to eventually advance to higher ranks such as lieutenant, captain, assistant chief, training officer, and fire chief.

TIM 12 EC  National Traffic Incident (TIM) Management: Responder Training Program
Classroom - 75%  Practical/Skills - 25%
All Fire Service Personnel  Course Hours: 12
This National Unified Program is designed to help ALL responders recognize the dangers encountered by emergency responders working in or near traffic. The Strategic Highway Research program, authorized by Congress, focuses on research on responder safety and safe, quick clearance. Created by responders for responders, the ultimate goal of this approach is to train the entire nation’s responder community, including all disciplines, to be compliant. This program is facilitated by the Mississippi State Fire Academy for the Mississippi Department of Transportation.

INSTRUCTOR CHIEF SHANNON SANDRIDGE
INTER-DEPARTMENTAL COURSES

This program was implemented to provide local fire departments with very short courses to serve as continuing education and in-house refresher. The training is available in 2-, 4-, and 8-hour courses. Departments may complete these in any order they desire. Contact Extension Services Bureau for instructions for requesting and delivering the in-service programs in your department.

2-HOUR COURSES

EC FD2-VF  Response to New Vehicle Fires
Fire Fighter - I Level  Course Hours:  2  *EMS CEU Hours: 2
This course focuses on categories and hazards of new vehicles and vehicle fire extinguishment and safety.

EC FD2-EH  Electrical Hazards on the Emergency Scene  Classroom/Discussion - 100%  Practical/Skills - 0%
Fire Fighter - I & II Level  Course Hours:  2  *EMS CEU Hours: 2
This course focuses on the basic issues involving electrical hazards encountered by a fire fighter while on a scene. Core topics include Safety, SOP’s, Size-Up, and Residential, Industrial & Vehicle Hazards.

FD2-NG  Natural Gas Considerations for Fire Departments  Classroom - 100%  Practical/Skills - 0%
Course Hours:  2
This course addresses the basic issues for fire departments to consider when responding to potential natural gas incidents. Some of the subject areas include Ignition Sources, Visual Clues, and General Tactics.

EC FD2-CS  Delivering Excellent Customer Service  Classroom/Discussion - 100%  Practical/Skills - 0%
Course Hours:  2
This course focuses on the need for identifying internal and external customers, determining customer needs, and developing/revising methods to meet those needs.

EC FD2-ETH  Fire Service Ethics  Classroom/Discussion - 100%  Practical/Skills - 0%
Course Hours:  2
This course focuses on how individual behavior impacts decision-making and leadership in organizational and personal settings. Other subjects include Recognizing the Risks and Rewards of Ethical Decision-Making, Leadership Responsibility, and Ethics and Values.

EC-CHEM-2  CHEMPACK: Emergency Planning & Response Program  Classroom/Discussion - 100%  Practical/Skills - 0%
ALL Fire Service Personnel  Course Hours:  2
This course is an introduction to the Centers for Disease Control’s CHEMPACK program and its origins. It will teach types of chemical warfare agents and organophosphate poisons, signs & symptoms of contamination, what actions to take in the event of a chemical attack or organophosphate incident, and how to request aid and assistance.

CHEMPACK is a lifesaving program that relies on the awareness and knowledge of ALL public safety. Your ability to recognize and quickly react will make the difference in life or death when minutes matter the most.

The Strategic Highway Research program, authorized by Congress, focuses on research on responder safety and safe, quick clearance. Created by responders for responders, the ultimate goal of this approach is to train the entire nation’s responder community including all disciplines to be compliant. This program is facilitated by the Mississippi State Fire Academy for the Mississippi Department of Transportation. Delivered in two-2-hour formats for your convenience.

EC-FFCS-4 Firefighter Cancer & Cancer Survival Awareness  Classroom - 100%  Practical - 0%
ALL Fire Service Personnel  Course Hours: 4
This course is designed to help ALL responders recognize the dangers and focus on cancer awareness in the fire service. This course will cover general firefighter statistics, importance of maintaining PPE, and show different ways firefighters can help reduce cancer within their department(s). Created by responders for responders the ultimate goal of this approach is to train the entire nation’s responder community in their personal safety.

INSTRUCTOR CHIEF SHANNON SANDRIDGE
**8-HOUR COURSES**

**EMS OP8  EMS Support Operations**
Fire Fighter-I Level  Course Hours: 8

This course is designed for those that do not have formal emergency medical training but may find themselves functioning in a support role on a medical scene. Topics covered include Patient History Taking, Scene Safety, Verbal Patient Assessment, Medical and Trauma Emergencies, Environmental Emergencies, Poisonings and Landing Zone Operations for Aeromedical Transport. This course also serves as a knowledge reinforcement for the EMR, EMT, or Paramedic. This course is designed to accompany a standard 4-hour CPR/AED class taught by a certified instructor. (Note: Any CPR certifications will be issued by the instructor through his or her certifying entity, not the MSFA)

**EC 914-F8  Overview of Apparatus Pump Operations: Annual Refresher**
Fire Fighter-I & II Level  Course Hours: 8

This course includes general fire apparatus pumping procedures, fire pump operations, and pumping techniques. It is designed for individuals responsible for operating fire apparatus pumps at emergency scenes and training incidents. This course references NFPA Standard 1002.

**EC 922-8F  Basic Aerial Operations: Annual Refresher**

Course Hours: 8
This course is designed to refresh students’ basic knowledge of various systems found on aerial apparatus, aerial operations, and maintenance. This course references NFPA Standard 1002.

**FIRE ACADEMY FOR ELECTED/PUBLIC OFFICIALS**

Course Number: EC 175
Course Hours: 8  Participants will also receive 4 CMO elective hours for municipal elected officials.
Course Fee: None
Meals: Breakfast $6.00 and/or Lunch $6.00 if requested. Cash only.
Dates of Delivery: October 13, 2022

Target Audience: Elected and public officials whose jurisdiction is protected by a state, municipal, or county fire department.

Note: Students are required to have a member of their local fire departments present. Students are also required to bring a full set of turn-out gear and SCBA (furnished by their local fire departments if they will participate in firefighting optional activities).

MISSISSIPPI FIRE CHIEF DESIGNATION PROGRAM (MFCD)

The purpose of this program is to provide an established set of standards for chiefs of fire departments in the State of Mississippi.

What It Is: Fire chiefs may apply to receive the designation of Mississippi Fire Chief. Although many chiefs may carry the title of Fire Chief, the opportunity to receive the accomplishment of Designated Mississippi Fire Chief shall be from those who demonstrate their willingness to promote and support the Mississippi Fire Service & possess the established knowledge, skills, and ability expected of a Mississippi Fire Chief.

Who Is Eligible: This designation is limited to those personnel who are currently serving in the position of Fire Chief (chief of the department) or other personnel who are head of their fire service organizations. Examples of this include County Fire Coordinator, Director of Fire Services, and Executive Director. This designation is available to career and volunteer Fire Chiefs. Personnel who serve in positions such as Deputy Fire Chief, Assistant Fire Chief, etc., are NOT eligible.

MISSISSIPPI CHIEF FIRE OFFICER DESIGNATION PROGRAM (MCFOD)

Purpose: The purpose of this program is to provide an established set of standards for the Chief Fire Officer of fire departments in the state of Mississippi.

What It Is: Chief Fire Officers may apply to receive the designation of Mississippi Chief Fire Officer. Although many chief officers may carry the title of Chief Fire Officer, the opportunity to receive the accomplishment of Designated Mississippi Chief Fire Officer shall be from those who demonstrate their willingness to promote and support the Mississippi Fire Service & possess the established knowledge, skills, and ability expected of a Mississippi Chief Fire Officer.

Who Is Eligible: This designation is limited to those personnel who are currently serving in the position of Deputy Fire Chief, Assistant Fire Chief, Division Fire Chief, etc. This designation is available to career and volunteer personnel. Both programs are a consolidated effort between the Mississippi Fire Chiefs Association and the Mississippi State Fire Academy. Both designation programs are not mandatory but are created and endorsed by the Mississippi Fire Chiefs Association.

Please contact the Designation Program Coordinator for general information and requirements for either Designation Program.
