

EXTENSION SERVICES BUREAU

The Extension Services Bureau continues to strive our best to train career and volunteer fire fighters all over the state. We provide many classes in the field and on campus for your benefit and the benefit of our citizens. We want to encourage those that are currently on the job to help us find more fire fighters throughout the state to join your respective departments. If you have questions about any of the courses we offer, please contact us and talk to one of our many instructors to help guide you through your training endeavor.

Our full time and adjunct instructor staff have worked hard this year to revise and add new regional fire schools throughout the state. You will find those at the end of this section. Please make note of the LP Burn locations and Fire Fighter Field days so that you can come join us on those dates.

We look forward to serving you in the next year and hope we can continue to provide the training you need for your department. You may also contact your County Fire Coordinator for training opportunities and information.

****IMPORTANT-EFFECTIVE JANUARY 1, 2024, FIRE FIGHTERS WHO ATTEND THE VOLUNTEER CERTIFICATION PROGRAM WILL BE REQUIRED TO COME ON CAMPUS TO TEST SKILLS. THIS CHANGE HAS BEEN MADE THROUGH OUR NEW ADMINISTRATION AND FOR THE BENEFIT OF FIRE FIGHTERS THROUGHOUT THE STATE.**

Shannon Sandridge, Instructor Chief

The bus will be used for extrication training and will be totally destroyed.

NATIONAL FIRE ACADEMY PROGRAMS

Through its courses and programs, the National Fire Academy (NFA) works to enhance the ability of fire and emergency services and allied professionals to deal effectively with fire and related emergencies. The Academy's delivery system is diverse. Courses are delivered throughout the state with local fire training organizations and local colleges and universities.

TO REGISTER FOR NFA COURSE DELIVERED IN THE STATE OF MISSISSIPPI

No course fee, however, you must pre-register through the MSFA/NFA coordinator or local host contact to ensure reserved seating.

A National Fire Academy course attendance request application must be received by the Mississippi State Fire Academy's Admission Office no later than 40 days prior to the scheduled class delivery if delivered on campus.

Classes are subject to cancellation or rescheduling by the NFA.

Minimum and maximum enrollment policies may be enforced by the NFA.

\$17 per night dorm fee for on-campus courses.

If weekday, meals \$12 per day extra.

Meals will not be served during weekend classes.

NOTE: Students attending National Fire Academy courses must have completed IS-200 levels of training (or equivalent).

All locations and dates may be subject to change. Registered students will be notified of changes.

REGIONAL TRAINING COURSES

The Mississippi State Fire Academy hosts free regional training throughout the year in all Mississippi counties. **Additionally, the courses listed below are available to all career and volunteer departments within the state.** These courses are regularly reviewed and updated by the MSFA staff. For a current listing of regional classes being conducted in your area visit our website or to deliver any of these classes within your own department contact Extension Services.

*This offering has been approved for EMS continuing education credit by the Mississippi Bureau of Emergency Medical Services.

Protecting Yourself from the Enemy-NEW!!! Classroom - 50% Practical/Skills – 50%

A course that will enhance the knowledge of a trained fire fighter in protecting themselves in the face of danger. The student will understand how the enemy behaves in certain situations and methods to protect yourself and your partner. It will also focus on the importance of 2 in 2 out and protecting your team.

Initial Care Actions for First Responders-NEW!!! Classroom – 50% Practical/Skills – 50%

This course covers the legal and ethical processes for first responders to act in an emergency. It will also focus on initial care of medical patients, patient assessment methodology, and Cardio-Pulmonary resuscitation overview.

EC 1003-12 Introduction to Aircraft Rescue & Firefighting Classroom - 75% Practical/Skills - 25%

All Fire Service Personnel Course Hours: 12 *EMS CEU Hours: TBD

This course was designed for structural fire fighters to give a basic knowledge of how to safely mitigate an accident involving general aviation aircraft whether on or off airport property. Covering such topics as Airport Familiarization, Aircraft Familiarization, Safety/Hazards, Communications, Extinguishing Agents, ARFF Apparatus, Fire Suppression, Ventilation, Overhaul, Emergency Planning, and Strategic and Tactical Operations. Activities included.

EC 066 Search and Rescue for Disaster Responses Classroom - 75% Practical/Skills - 25%

Fire Fighter - I Level Course Hours: 12

This course is designed to provide emergency responders with search and rescue skills for responding to disasters such as tornados and hurricanes. This course will review several components in the NFPA 1006 standard and will give students the information needed to perform wide area searches.

EC 067 Fire Attack for the Modern Era Classroom - 50% Practical/Skills - 50%

Fire Fighter - I Level Course Hours: 12

This course will review the newest research performed by NIST and UL. It will include lessons in critical flow rates, hose line techniques and nozzle handling techniques. This course will also review several tactical considerations for fighting structural fires in the modern era.

EC 009 Mississippi Fire Fighter Safety Classroom - 75% Practical/Skills - 25%

Fire Fighter - I-II Level Course Hours: 12 *EMS CEU Hours: 4

This course is designed to allow students to focus on issues that affect them and their fire departments. It is not a course about general safety issues. Students are required to look at areas where they must take more responsibility for their safety and the safety of their department members. The course also covers the most recent fire fighter deaths in Mississippi.

INSTRUCTOR CHIEF SHANNON SANDRIDGE

EXTENSION SERVICES BUREAU

EC-FFCS-12 Firefighter Cancer & Cancer Survival Awareness Classroom - 100%

Practical - 0%

ALL Fire Service Personnel Course Hours: 12

This course is designed to help ALL responders recognize the dangers and focus on cancer awareness in the fire service. This course will cover general firefighter statistics, importance of maintaining PPE, and show different ways firefighters can help reduce cancer within their department(s). Created by responders for responders the ultimate goal of this approach is to train the entire nation's responder community in their personal safety.

EC 096 Rapid Intervention Teams

Classroom - 25%

Practical - 75%

Fire Fighter - II Level Course Hours: 12

*EMS CEU Hours: 4

This course is designed to prepare fire fighters for "Operations" level RIT duties. It combines both "Awareness" and "Operations" level training for participants who have minimal experience in RIT work, and can be adapted to be utilized for students with various levels of RIT experience.

EC 150-1 Engine Company Operations-Part 1

Classroom - 75%

Practical - 25%

Fire Fighter - II Level Course Hours: 12

*EMS CEU Hours: 3

This course is designed to give the engine company fire fighter the knowledge, skills, and abilities to function safely and efficiently on a fire scene. This class provides an overview of the duties expected on the fireground with an emphasis on safety. Part 1 of this course addresses: Apparatus Positioning, Rescue, Water Supply, and Initial Attack Lines. The course references the textbook Engine Company Fireground Operations, Third Edition NFPA, Harold Richman, Jones and Bartlett Publishers, ISBN-13: 978-07637-4495-3.

EC 150-2 Engine Company Operations-Part 2

Classroom - 75%

Practical - 25%

Fire Fighter - II Level Course Hours: 12

*EMS CEU Hours: 3

This course is designed to give the engine company fire fighter the knowledge, skills, and abilities to function safely and efficiently on a fire scene. This class provides an overview of the duties expected on the fireground with an emphasis on safety. Part 2 of this course addresses: Backup Lines, Exposure Problems, Master Stream Appliances, Fire Protection Systems, and Overhaul. The course references the textbook Engine Company Fireground Operations, Third Edition NFPA, Harold Richman, Jones and Bartlett Publishers, ISBN-13: 978-07637-4495-3.

EC 003 Fireground Support Operations

Classroom - 50%

Practical - 50%

Fire Fighter - I-II Level Course Hours: 12

This course focuses on the very important operations used in conjunction with fire attack procedures to achieve fire suppression and control. Classroom presentations include: Fire Behavior, Ventilation, Ladders, Salvage and Overhaul, Forcible Entry, and Power Tools. Demonstrations and simulations provide practical experience for the participants.

EC 007 The Fire Apparatus Driver

Classroom - 75%

Practical - 25%

Fire Fighter -I-II Level Course Hours: 12

*EMS CEU Hours: 6

This course is designed to address the everyday challenges of driving a fire apparatus. Subjects covered include: Fire Apparatus Inspection and Maintenance, Operating Emergency Vehicles, Positioning and Spotting the Fire Apparatus, and Recent Incidents Involving Fire Apparatus in Mississippi. Activities include basic operation of a fire apparatus (if allowed by hosting department).

INSTRUCTOR CHIEF SHANNON SANDRIDGE

EXTENSION SERVICES BUREAU

915-M1 Basic Apparatus Pump Operator

Classroom - 50%

Practical - 50%

Fire Fighter -II Level Course Hours: 12 Hours

Designed to present the fundamentals of pump operation, this course provides the student with the knowledge necessary to become an efficient pump operator. Covering such topics as Pump Design and Maintenance, Pump Types, Hydraulics, Fire Flow, and Pump Operation, this course prepares the student for the critical role of a pump operator on the fire ground.

EC 915-M2 Apparatus Pump Operator for Mobile Water Supply

Classroom - 50%

Practical - 50%

Fire Fighter -II Level Course Hours: 12

A course designed to cover water supply in rural areas where water shuttle is necessary. It covers many aspects of the use of a mobile water supply including tanker design, water sources, delivery rates, shuttle techniques and operations. A demonstration utilizing local equipment provides a practical display of the concept.

EC 011 Hazardous Materials: Initial Response

Classroom - 60%

Practical - 40%

Fire Fighter - I Level Course Hours: 12

*EMS CEU Hours: 12

This course covers material outlined in NFPA 472 and OSHA 29 CFR 1910.120 for initial response and action in emergency operations awareness and operational levels. Classroom presentations cover Recognition and Identification of Hazardous Materials, Initial Response Procedures, Safety Zones, Personal Protective Equipment, and Decontamination.

EC 012 Automobile Extrication

Classroom - 50%

Practical/Skills - 50%

Fire Fighter - I Level Course Hours: 12

*EMS CEU Hours: 12

This course is an excellent guide to the basic methods of auto extrication, covering the subjects of scene safety and stabilization, patient care, and actual extrication techniques. The student is exposed to various methods and tools needed to perform an extrication. Hands-on practical demonstrations allow the students to utilize the local equipment in performing simulated rescues. A special thanks to the New Albany Fire Department for video demonstrations used in this course.

EC 041 Training, Responding and Returning Home Alive

Classroom - 80%

Practical/Skills - 20%

Fire Fighter - I & II Level Course Hours: 12

*EMS CEU Hours: 8

This course is not a typical safety and survival course. It is very interactive. This course allows the students to measure how much progress we (Mississippi fire fighters) have made in being able to survive the dangers of firefighting. It also allows students to look at themselves and determine whether they are part of the problem or part of the solution. NIMS issues are included in the unit addressing incident safety. Other subjects include Fire Department Risk Management, Vehicle Response and Highway Safety, Keeping Training Safe, and Our Survival Challenge in Mississippi.

EC 041 The 10 Commandments of Effective and Safe Fireground Management - Classroom – 100%

Fire fighter – I & II Level Course Hours: 12

*EMS CEU Hours: 8

EC 151 Understanding the Role of the Incident Safety Officer

Classroom - 50%

Practical/Skills-50%

Fire Fighter - II Level Course Hours: 12

*EMS CEU Hours: 12

This course is designed to give fire fighters the opportunity to learn about the responsibilities of the Incident Safety Officer and what fire fighters can do to support the function of the safety officer at all types of incidents. Students should have a thorough understanding of the Incident Command System (ICS). The course will allow great opportunities for departments to address previous incident safety issues and be proactive for possible future incidents.

INSTRUCTOR CHIEF SHANNON SANDRIDGE

EXTENSION SERVICES BUREAU

EC 160-PA Managing the Rural Emergency and Personal Accountability Classroom - 50% Practical/Skills-50%

Fire Fighter - II Level Course Hours: 12

This course is designed to merge the Incident Command System with the 2-in-2-out rule. Appropriate for career or volunteer departments in rural or urban settings, classroom sessions involve activities focusing on command responsibilities, staff position roles, and most importantly, fire fighter accountability.

EC 152 Strategies for Fire Fighter Personal Success Classroom - 50% Practical/Skills - 50%

Fire Fighter - II Level Course Hours: 12 *EMS CEU Hours: 2

This course provides the company officer, or future company officer, with the basic leadership skills and tools needed to perform effectively in the fire service environment. The course addresses Ethics Use and Abuse of Power at the Company Officer Level, Creativity in the Fire Service Environment, and Management of the Multiple Roles of the Company Officer. The course can be especially useful for departments to prepare personnel to eventually advance to higher ranks such as lieutenant, captain, assistant chief, training officer, and fire chief.

EC 153-1 Fire Fighter Essential Skills – I Classroom- 25% Practical/Skills 75%

This course is designed to enhance/refresh fire fighter skills. The course uses sections from the MS Volunteer Fire Fighter Course and NFPA 1001. Recently updated, this course includes fire fighter safety and health, PPE, communications, fire behavior, extinguishers, and tools and equipment. In addition to refreshing skills, the course is also useful to prepare new fire fighters for the MS Volunteer Fire Fighter course.

EC 153-2 Fire Fighter Essential Skills – II Classroom- 25% Practical/Skills 75%

This course is designed to enhance/refresh fire fighter skills. The course uses sections from the MS Volunteer Fire Fighter Course and NFPA 1001. Recently updated, this course includes building construction, ropes/knots, search/rescue, ladders, water supply, hose and nozzles. In addition to refreshing skills, the course is also useful to prepare new fire fighters for the MS Volunteer Fire Fighter course.

TIM 12 EC National Traffic Incident Management: Responder Training Program Classroom - 75% Practical/Skills - 25%

All Fire Service Personnel Course Hours: 12

This National Unified Program is designed to help **ALL responders** recognize the dangers encountered by emergency responders working in or near traffic. The Strategic Highway Research program, authorized by Congress, focuses on research on responder safety and safe, quick clearance. Created by responders for responders, the ultimate goal of this approach is to train the entire nation's responder community, including all disciplines, to be compliant. This program is facilitated by the Mississippi State Fire Academy for the Mississippi Department of Transportation.

INTER-DEPARTMENTAL COURSES

This program was implemented to provide local fire departments with very short courses to serve as continuing education and in-house refresher. The training is available in 2-, 4-, and 8-hour courses. Departments may complete these in any order they desire. Contact Extension Services Bureau for instructions for requesting and delivering the in-service programs in your department. Students will not receive certificates for these courses.

2-HOUR COURSES

EC FD2-VF Response to New Vehicle Fires

Fire Fighter - I Level *EMS CEU Hours: 2

This course focuses on categories and hazards of new vehicles and vehicle fire extinguishment and safety.

EC FD2-EH Electrical Hazards on the Emergency Scene

EXTENSION SERVICES BUREAU

MISSISSIPPI FIRE CHIEF DESIGNATION PROGRAM (MFCD)

The purpose of this program is to provide an established set of standards for chiefs of fire departments in the State of Mississippi.

What It Is: Fire chiefs may apply to receive the designation of Mississippi Fire Chief. Although many chiefs may carry the title of Fire Chief, the opportunity to receive the accomplishment of Designated Mississippi Fire Chief shall be from those who demonstrate their willingness to promote and support the Mississippi Fire Service & possess the established knowledge, skills, and ability expected of a Mississippi Fire Chief

Who Is Eligible: This designation is limited to those personnel who are currently serving in the position of Fire Chief (chief of the department) or other personnel who are head of their fire service organizations. Examples of this include County Fire Coordinator, Director of Fire Services, and Executive Director. This designation is available to career and volunteer Fire Chiefs. Personnel who serve in positions such as Deputy Fire Chief, Assistant Fire Chief, etc., are NOT eligible.

MISSISSIPPI CHIEF FIRE OFFICER DESIGNATION PROGRAM (MCFOD)

Purpose: The purpose of this program is to provide an established set of standards for the Chief Fire Officer of fire departments in the state of Mississippi.

What It Is: Chief Fire Officers may apply to receive the designation of Mississippi Chief Fire Officer. Although many chief officers may carry the title of Chief Fire Officer, the opportunity to receive the accomplishment of Designated Mississippi Chief Fire Officer shall be from those who demonstrate their willingness to promote and support the Mississippi Fire Service, & possess the established knowledge, skills, and ability expected of a Mississippi Chief Fire Officer

Who Is Eligible: This designation is limited to those personnel who are currently serving in the position of Deputy Fire Chief Assistant Fire Chief, Division Fire Chief, etc. This designation is available to career and volunteer personnel. Both programs are a consolidated effort between the Mississippi Fire Chiefs Association and the Mississippi State Fire Academy. Both designation programs are not mandatory but are created and endorsed by the Mississippi Fire Chiefs Association.

Please contact the Designation Program Coordinator for general information and requirements for either Designation Program.
