

COURSE FEES AND POLICIES

All course applications received prior to November 16, 2024 will be reviewed by a committee from the Mississippi Fire Chiefs Association. Students accepted to attend a course will be notified by letter no later than 30 days prior to the start of the course. Upon completion of a class, the course fee will be billed to the sponsoring department or organization. (See section 6 on general admission application unless otherwise noted.)

1. Course package fees are listed by each individual course, with a Group A, or Group B designation. Course fees include the instructional fee, facility use fee, dorm fees (if applicable), meals (if applicable), and may include a supply fee for consumable commodity supplies used in the course.

Course Fee Groups:

Group A

fee students represent: Mississippi Municipal (career or volunteer) fire departments, Mississippi County (career or volunteer) fire departments, county fire arson investigator (County Fire Arson and Investigator course), emergency management, military personnel assigned full time to a Mississippi Base and Choctaw Fire Department.

Group B

fee students represent: Industrial organizations, federal affiliates, out of state students, for profit entities, law enforcement, medical entities, dispatchers, etc.

Dormitory rooms will be assigned on a first-come basis and after the dormitory is filled, students will be responsible for making outside accommodations. Courses are usually scheduled to coincide with dormitory capacity. (Note: The dorm is closed on the weekends unless a weekend class is being held.)

2. Breakfast and lunch are included in course fees (unless stated otherwise) and will be served at the Academy on weekdays only.

3. Registration:

Preregistration will not be accepted by telephone. Students' applications should be done through the Academy's online registration process. To register online, go to msfa.ms.gov and click on the 'Sign Up' link in the top right corner.

NOTE: Applications for some courses must include course fee when submitted in order for application(s) to be accepted and processed. Departments may submit a purchase order or check for registration for pre-pay classes. Please read course description to determine if course requires pre-payment.

4. State Agency Employees:

Per MS Code 27-104-203, state agencies are prohibited from charging other state agencies. Therefore, all state agency employees that attend training must pay for their dorm and meal expenses, to be reimbursed by their state agency. State agency employees must also purchase their books from a supplier other than MSFA before the start date of class. A book will not be provided to them.

5. Application Processing Fee:

There is a \$40 application processing fee for all courses, which is included in the cost of the course. This fee will be charged to the sponsoring department/organization once any changes are made to a registered student (i.e., cancellation or student substitution). This policy will also apply to fee waived (grant funded) courses.

6. No Show Policy For All Courses:

There will be a \$60 fee for all students who are registered to attend a course and fail to attend on the first day. The fee will be charged to the sponsoring department/organization. (Except for 1001-I-II and Smoke Diver. See these course descriptions for pricing).

No Show Policy for Fee Waived (Grant Funded) Courses:

There will be a \$60 fee for all students who are registered to attend a course and fail to attend on the first day. The fee will be charged to the sponsoring department/organization. In addition, the student will not be able to register for any other fee-waived (grant funded) courses for a period of one year. Additionally, if the student is currently registered for a fee waived class later in the same year, the registration will be voided and the student will be removed from the class.

7. Cancelling a Registered Student:

A request for cancellation for a registered student must be in writing (mail or fax to 601-932-2819) by the fire chief or other responsible official. The notice should contain the department name, student name, the course name and delivery date. Cancellations CAN NOT be taken verbally. Cancellations should be received no later than ten (10) working days prior to course start date. A \$40 processing fee (Section 4 above) will apply and be invoiced to the sponsoring department/organization (regardless if application is marked student financially responsible). Fee does not apply to pre-paid classes.

8. Student Substitution:

A request for student substitution for a registered course must be in writing (mail or fax to 601-932-2819) by the fire chief or other responsible official. The notice should contain the department name, both student names, the course name and delivery date. An application for the new student must be submitted with the request. Substitution request CAN NOT be taken verbally. A \$40 processing fee (Section 4 above) will apply and be invoiced to the sponsoring department/organization (regardless if application is marked student financially responsible).

9. Student Withdrawal:

A. When students withdraw for an emergency reason during a course, the Academy will enroll them in the next available course when requested by department. The entity will be billed a pro rata fee. This policy does not include the Smoke Diver course.

B. When students withdraw from a course due to illness or injury, the Academy will enroll them in the next available course, at the point at which the student withdrew, with a documented medical statement releasing said student for participation and requested by department. The entity will be billed a pro rata fee. This policy does not include the Smoke Diver course.

C. When students withdraw from a course for any other reason, all application, course and supply fees will be forfeited.

D. This policy also applies to grant funded courses. (See Section 6 of general admission application)

10. Students will be notified, through their department, upon acceptance in a course and their dormitory status.
11. For any admission application that is marked student responsible, the payment must be received 30 days prior to course begin date or the student may be removed from the class.
12. REPLACEMENT CERTIFICATE:

The Academy's charge for a replacement certificate is \$2.50. If the replacement certificate is for an IFSAC accreditation course and you want a replacement seal, add an additional \$5.00. All requests for replacement certificates should be sent to the Admissions Office with the student's name, student ID, course attended, date attended, and the address to mail the certificate(s) to. Replacement of ProBoard certificates is the responsibility of the student. Applications can be obtained from the Curriculum Coordinator's office.
13. Student Eligibility:
 1. Student must be a minimum of 18 years of age.
 2. Student must be employed or sponsored by one of the following: Municipal, County, or Industrial fire protection department/organization (MS Code Annotated 1972, Section 45-11-8(1)).

14. Re-Test Policy:

It shall be the policy of the Mississippi State Fire Academy to offer (one) 1 re-test to students on any final administered for an NFPA certification course that is completed with less than a 70% average.

1. The student shall complete all quizzes/tests administered throughout the course with a 70% average to qualify to take the certification final.
2. If the student's grade on the final is below a 70%, the student has one chance to re-take the final.
3. The re-test shall be a different version of the previous final, but it shall consist of content at the same level.
4. The re-test must be done within thirty days of the first test date.
5. The test shall not be administered the same date of the first test date. The student should be given time to study and prepare for the re-test.
6. To re-test, the student shall call and schedule with Instructor Chief Shannon Sandridge or Senior Instructor Donny Collins at (601) 932-2444.
7. The fee of a re-test shall be \$50 and can be paid on the day of the scheduled test.
8. The student will also need to submit a current application for admission with the test fee.

RULES AND GUIDELINES GOVERNING STUDENTS

Responsibility for compliance with these rules and guidelines rests with the students. Become familiar with the content. For additional help, request an explanation from any Fire Academy Instructor.

Overall charge of the Academy begins with the Executive Director who directs the training programs with help from other staff members. Instructors have delegated responsibilities, one of which is to ensure that all students fulfill their obligations to the Academy.

CLASS ATTENDANCE—All students will be required to attend orientation on the first day of class. The first day of delivery, class will begin at 8:00 a.m. with the Academy rules and procedures being read and explained. Some special classes may begin at other specified times.

CLASS SCHEDULE—The majority of classes are scheduled for Monday-Thursday. A confirmation letter will be sent with dates of delivery to your department. A schedule of activities may be posted in the classroom area. Special night evolutions may be scheduled in some courses.

RULES AND GUIDELINES GOVERNING STUDENTS

Responsibility for compliance with these rules and guidelines rests with the students. Become familiar with the content. For additional help, request an explanation from any Fire Academy Instructor.

Overall charge of the Academy begins with the Executive Director who directs the training programs with help from other staff members. Instructors have delegated responsibilities, one of which is to ensure that all students fulfill their obligations to the Academy.

CLASS ATTENDANCE—All students will be required to attend orientation on the first day of class. The first day of delivery, class will begin at 8:00 a.m. with the Academy rules and procedures being read and explained. Some special classes may begin at other specified times.

CLASS SCHEDULE—The majority of classes are scheduled for Monday-Thursday. A confirmation letter will be sent with dates of delivery to your department. A schedule of activities may be posted in the classroom area. Special night evolutions may be scheduled in some courses.

PERSONAL ITEMS—The Academy will not assume any responsibility for loss, theft, or damage of personal items.

WITHDRAWALS—Should it become necessary for a student to withdraw from a course, the course instructor must be notified. All equipment and supplies issued to said student shall be returned before departing and a withdrawal slip signed by student.

GENERAL CARE OF THE ACADEMY FACILITIES—Students are required to place all refuse in the proper containers, to use only surfaced walkways between training sites, observe all posted signs, and to avoid any abuse of the Academy's facilities. Abuse or damage of state property may result in dismissal from the Academy.

PARKING—Students must park their vehicles in the following parking lots: front of the Administration Building or front of the Dormitory Building.

TARDINESS—Students are required to be punctual for all classes, physical training, and other activities. Classes will begin promptly at the scheduled time unless specific instructions are given. Tardiness may be charged at any time during the scheduled training day or for any required function outside the classroom. The first tardy will result in an oral reprimand; the second in a written reprimand being placed in the course file with a copy directed to the student's employer; and the third will result in dismissal of the student from the Academy. Tardiness is defined as up to 15 minutes after the designated class start time.

ABSENCES—Failure to report to class for a scheduled activity at the specified time will be recorded as an absence. Unless special permission is received from the Course Instructor, students are not permitted to leave the Academy at any time during training hours. Failure to comply will result in an unexcused absence and dismissal. Emergency leave may be allowed for legitimate reasons. Make up of all classes and exams missed during a student's absence shall be completed upon the student's return. Make up of classes in some courses may not be available until the next scheduled course, and the student's record will indicate "Dropped." Due to the course material in some classes, students may be required to enroll from the beginning of the course. A student is considered absent when they are 15 minutes or beyond past the designated class start time.

AMERICAN DISABILITIES ACT (ADA) FEDERAL REGULATIONS (REVISED)—In accordance with ADA Federal Regulations, the sponsoring department/organization may request an oral examination process for their personnel who have a qualifying disability covered by the ADA regulations. To request oral testing as a reasonable accommodation, the department and/or student must submit a written request with supporting documentation from a professional with an appropriate medical licensure to make a diagnosis and to recommend the reasonable accommodation. This must be requested each time a student registers for attendance as we do not keep the information on file for reference.

Please note that oral testing for Hazardous Materials courses is not a reasonable accommodation since the student must demonstrate the ability to read and comprehend notations on signs, place cards, MSDS sheets, and labels for testing purposes.

COMMUNICATIONS—Students should have the ability to read, write, and understand the English language. Additionally, the student should have the ability to comprehend written precautions, instructions, and warnings in the English language, including, but not limited to material safety data sheets and posted warnings regarding hazardous, flammable/explosive materials and hazardous or unsafe areas and physical conditions.

COMPUTER INFORMATION FOR POTENTIAL STUDENTS—Depending on the course you are taking; you may have access to computer lab. You may also have access to the Internet, but you will be bound by Academy policy and ITS policy regarding use of State Computer Systems.

The Mississippi State Fire Academy will allow you to bring your own personal computer equipment for use but will not be responsible for any loss or theft of computer equipment. The Mississippi State Fire Academy does not offer any repair service for student's own personal equipment.

Some areas of the Academy campus do not currently have wireless access.

If you are planning on doing some work at home in advance of your class and want to use the Academy's computers while you are here, please save your work in file formats compatible with older systems.

RELEASING OF TEST SCORES AND TRANSCRIPTS—Test scores and training records will be released only upon written request from the individual or one of the following: individual's department head or training officer. Student transcripts shall be obtained only by a written request from the student, the chief officer in charge, or a designee from the organization represented. Name, MSFA student ID number, and mailing address must appear on the written request.

CONDUCT AND DISCIPLINE—Immoral or disorderly student conduct, profane, obscene, vulgar, or indecent language, and any racial or sexual slurs/harassment may result in dismissal from the Academy. The Instructor Chief and/or the Executive Director will handle all infractions committed by students. Harassment is any unwarranted or unwanted verbal or nonverbal conduct which threatens, intimidates, pesters, embarrasses, annoys, degrades, or insults another person, either female or male, where such conduct has the purpose or effect of creating an offensive, intimidating, degrading, or hostile environment. Sexual harassment includes unwelcomed sexual advances, requests for sexual favors and other verbal or nonverbal actions of a sexual nature. (Immoral or disorderly conduct, misconduct, profane, obscene, vulgar, or indecent language, and any racial or sexual slurs/harassment will not be tolerated and may result in dismissal from the Academy with two years suspension.)

DRESS CODE—Comfortable clothing such as warm-ups, coveralls, or other suitable clothing may be worn in class and for evolutions not requiring protective clothing. All students will be required to wear NFPA recommended protective clothing for designated evolutions. Students are required to wear shirts with sleeves in public areas of all Academy

buildings. "T"-Shirts, sweat-shirts and caps must be official fire department, fire service, industrial, law enforcement, emergency medical services, or solid. Other T-shirts and caps are not permitted. Shorts and dresses shall be no shorter than 2 inches from the top of the kneecap. Ladies' sports bras shall be padded and worn under shirts in all public areas and buildings at all times. Spandex or Lycra, such as yoga pants or leggings, shall only be worn under shorts. Students participating in hot drill evolutions should wear long sleeve shirts and long pants for additional personal safety. Full coverage shoes are required at all times while attending the Academy.

CLASSROOM DEMEANOR—Students using vulgar, disrespectful, or disruptive remarks, or engaging in other activities strictly prohibited by Academy rules and procedures will face disciplinary action. Disciplinary action may include dismissal and two years suspension. Students are required to maintain classroom cleanliness. Each student is responsible for the removal of trash from their area and the alignment of his/her nameplate, books, and chair each day.

CELL PHONE USAGE—If a student finds it necessary to bring a cell phone to class, it must be on silent mode at all times. It will be acceptable for a student to use the cellular device to record classroom lectures. However, cell phone usage or recording is prohibited during the following:

- a) Basic firefighting class - all class times
- b) Any course during testing process (skills or written)
- c) Any post course test review process
- d) Any other time the course Instructor deems necessary to prohibit usage

GRADES AND EXAMINATIONS—Students who complete the course with an overall average of 70% or greater and satisfactorily complete all physical and practical exercises will receive a certificate indicating successful completion. Failure to complete all of these requirements will result in course failure and will be noted on their permanent training record. See Course Instructor for copy of testing procedures.

All Multi-Level Accredited Courses will be tested for each level. Successful completion of both levels is required for accreditation. contact the Curriculum Coordinator for complete details or visit our website: www.msfa.ms.gov/

ACADEMIC MISCONDUCT—Academic misconduct or dishonesty is any type of cheating that occurs in relation to a formal academic exercise. All students cheating during training will be subject to immediate dismissal.

PHYSICAL TRAINING—All students must participate in every aspect of training. Failure to participate will result in an "Incomplete" grade in the course.

BREAKS—The instructor in charge of the class will set times for breaks. Taking breaks outside of the designated break areas is prohibited. Students are allowed in the front office area only when conducting official business or with prior authorization from an instructor.

EQUIPMENT AND SUPPLIES—Students are responsible for the care and return of all Academy issued equipment and/or supplies.

PERSONAL HYGIENE AND GROOMING—Students are expected to maintain personal hygiene and acceptable appearance during training at the Academy. A student who has hair (stubble, mustache, sideburns, beard, low hairline, bangs), jewelry, or

other impediment to the proper seal of the facepiece of a self-contained breathing apparatus, shall not be permitted to participate in training courses requiring the use of self-contained breathing apparatus.

MEDICATIONS—The Academy does not provide oral medications for students.

ILLNESS OR INJURY—If students are ill or injured, they must report immediately to the Course Instructor so proper medical care may be provided and a record maintained. Any special medical issues must be indicated in the appropriate location found on the Academy's General Admission Application. The Mississippi State Fire Academy does not provide medical insurance coverage for students.

USE OF TOBACCO PRODUCTS—The Academy prohibits the use of any tobacco products inside all buildings on the campus and while using training equipment. Containers are provided outside the buildings for disposal of cigarettes and cigars.

WEAPONS AND EXPLOSIVES—In an effort to safeguard the public, staff, and students of the Academy, weapons of any type and/or explosives are not allowed in any building or training area and are prohibited on Academy grounds. Any person having possession of a weapon or explosive in any building or training area will be asked to remove the weapon or explosive from the campus. If the person does not comply with the removal of the weapon or explosive, the Academy will call for law enforcement assistance. In addition, any student found with a weapon or explosive will be subject to immediate dismissal. This prohibition shall not apply to certified law enforcement officers.

GAMBLING, INTOXICANTS, NARCOTICS—Gambling in any form, possession of alcoholic beverages or illegal narcotics is prohibited on Academy grounds. Violation of any of the above will result in immediate dismissal.

VIOLATION OF THE LAW—Any student arrested or under the influence of any intoxicants or narcotic substances, etc., while enrolled at the Academy will be subject to immediate dismissal.

STUDENT GRIEVANCE PROCEDURE—Student grievances should be made in written form (within ten (10) working days) to the Instructor Chief who will review the grievance and take the appropriate action. Written appeal of the Instructor Chief's decision can be filed with the Executive Director for review. Any further appeal is filed with the office of the Commissioner of Insurance whose decision is final.

MINIMUM AGE—Students attending courses at the Mississippi State Fire Academy must be a minimum of 18 years old.

UNAUTHORIZED PERSONNEL—Unauthorized personnel are restricted from the State Fire Academy Field Training Complex.

FIRE FIGHTER STAMINA—Fire fighter training can be a physically and mentally stressful activity. Training requires considerable physical exertion—exposure to high temperature and humidity levels, and toxic atmospheres, and the ability to react quickly to emergency situations. It requires working at height and in confined spaces. Results could cause elevated body temperatures, increased pulse, respiration, and blood pressure. Persons with known heart or lung disease, hypertension, pregnancy, or other medical or mental conditions are advised to check with his/her personal or department physician before participating in any of these activities.

INFORMATION FOR DORMITORY STUDENTS

Upon arrival at the State Fire Academy, all dormitory students must register at the Dormitory located south of the Administration Building. A Security Officer will be present to assist in registration and related activities. Only those students enrolled for training, or those assisting with training, may stay in the dormitory. Students may check-in dormitory between 5:00 p.m. and 8:00 p.m.

The Security Officer is directly responsible for safety, conduct, and security of dormitory occupants, and will be available to assist students, in these areas, during non-training hours.

All dormitory rooms will be subject to inspection and/or searched if violations of rules are suspected. A request for admission to the State Fire Academy will be construed as an implied consent to all investigations and searches. These investigations and searches will be conducted by proper authorities.

Dormitory furnishings are property of the state of Mississippi. Any cost for repair or replacement will be charged directly to the student(s) responsible and/or the organization(s) the student represents.

Rooms are inspected prior to and upon departure of student occupancy. Responsibility for any damage or missing property will be charged to the student(s) last occupying the room.

Once room assignments have been made, requests for changes will be directed to the Executive Director. All students will share in the proper policing of their rooms, buildings, and campus as directed. Each day all beds will be made, and all personal items neatly stored. All linen and room keys must be turned in before 8:00 a.m. the last day of class. Blankets and spread should be folded neatly and placed on the bed. Rooms must be neatly arranged and free of all debris. All personal items are to be removed from room on Thursday.

The dormitory will be closed during class hours, with the exception of lunch time. If students need to return to their room during class hours, permission must be granted by the Course Instructor.

Except in the case of married students, no room will be shared by a male student and a female student. Students of opposite sex will not visit in rooms.

Dormitory visitors will be allowed only between the hours of 6:00 p.m. and 9:00 p.m. All visitors must leave the campus at 9:00 p.m.

The use of tobacco in any form is strictly prohibited in the dormitory. Failure to comply will result in dismissal from dormitory privileges.

Alcoholic beverages and controlled substances are strictly prohibited in the dormitory. Failure to comply will result in dismissal from dormitory privileges.

Students are free to leave the State Fire Academy at the end of each class day. However, if grade average is below 70% they are encouraged to remain on campus and study.

Quiet time will be observed between the hours of 10:30 p.m. and 6:30 a.m. Students who fail to observe quiet hours will be removed from the dorm.

The State Fire Academy grounds will be secured at 11:00 p.m. All students should be back on the grounds prior to this time. Security checks will be made of the Academy complex continuously during the night.

Use of the exercise room is encouraged; however, for safety reasons, no one will be permitted to work out in the exercise room unless others are present. The exercise room is limited to fitness use only. Leisure activity is not allowed. Students unaccustomed to using an exercise room should seek the supervision of a staff instructor.

A public telephone is located in the Dormitory lobby for outgoing calls only.

The opening of windows, blocking or altering of air conditioner/heating vents is prohibited due to the temperature control system of the dormitory. If the dorm room is not a comfortable temperature, please notify your instructor during the morning roll call.

Items provided include: mattress, sheets, pillow, blanket, bath towels and hand towels. Any other items essential to your stay, you must provide. Please note mattresses are covered in plastic for sanitary reasons. A small refrigerator is in each room and a microwave is in lobby area. There is one TV in the lobby area. Vending machines are also available.

Rules and guidelines governing student conduct will be strictly enforced. All students not in compliance will be subject to expulsion from the State Fire Academy. A full report of their conduct will be submitted to the trainee's fire chief and/or other appropriate official(s). The foregoing information shall not be construed as all-inclusive.

CERTIFICATION BUREAU

MISSISSIPPI TRAINEE AGILITY TEST (MSTAT)

Course Number	MSTAT
Course Hours:	1
Enrollment:	An Admission Application and payment is required for each MSTAT that the trainee attends. The sponsoring department will be billed after each test.
Maximum Enrollment:	30
Course Fee:	\$20 (Note: Regional testing sites may require an additional \$10) Pre-Entry Requirement into a Mississippi Fire Personnel Minimum Standards and Certification Board NFPA 1001-I-II Fire Fighter Course. The trainee must present a pictured driver license or other government issue form of pictured identification showing candidate is a minimum 18 years of age.
Delivery Location/ Date:	Starkville, Oxford, Meridian, Gulfport, & MSFA (if required): January 10, 2024 March 6, 2024 May 1, 2024 July 10, 2024 September 11, 2024 November 6, 2024 Tupelo, Grenada, Jackson, & Biloxi: February 7, 2024 April 3, 2024 June 5, 2024 August 7, 2024 October 2, 2024 December 4, 2024
Prerequisite:	None
Other:	As per Minimum Standards and Certification Board requirement, once the fire fighter has successfully completed MSTAT, the trainee must begin the Fire Fighter 1001-I-II course within 365 days.

FIRE FIGHTER 1001-I-II

(State minimum Training Standards Course)

Course Number	CC 1001-2014 This Course Is Accredited by IFSAC and PROBOARD (MISSISSIPPI CODE #45-11-203) Meets or exceeds NFPA 1001)	
Course Hours:	280	
EMS CEU Hours:	48	Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.
Maximum Enrollment:	30	
Course Fees:	\$500 - Group A \$1,185 - Group B This course qualifies for funding through the Workforce Development program for Group A only. Course fee includes all instruction, course material, manual, dorm, and meals. There is no reduction to the fee if any of the above are not needed.	
Delivery Date:	Delivery 1	January 7–February 22, 2024
	Delivery 2	February 25–April 11, 2024
	Delivery 3	April 7–May 23, 2024
	Delivery 4	June 2, 2024–July 25, 2024 (No class the week of July 4 th)
	Delivery 5	August 4–September 26, 2024 (No class the week of Labor Day)
	Delivery 6	October 20–December 12, 2024 (No class the week of Thanksgiving)

INSTRUCTOR CHIEF MARCUS COLLIER

CERTIFICATION BUREAU

- Prerequisites: Successful completion of MTSAT and the following eight documents must be on file with the Academy before a Fire Fighter 1001 Applicant will be registered for a class:
1. An MSFA General Admission Application for Fire Fighter 1001-I-II.
 2. A copy of a pictured driver's license or other government issued form of pictured identification showing the student is a minimum of 18 years of age. A properly notarized copy of a birth certificate may be used as evidence of meeting this requirement. The driver's license must be legible and not expire during the course delivery.
 3. A copy of a standard high school diploma or certificate of GED notarized by the issuing institution or school board. A letter indicating the student's name, social security number and graduation date, issued by the school board will also meet the requirement for this item. A copy of a student issued transcript from a community college or four-year university transcript will also suffice for meeting the minimum requirement of standard high school diploma or certificate of GED.
 4. A copy of a current CPR card issued from American Heart Association, American Red Cross, or equivalent. The CPR card must be signed and valid during the course delivery.
 5. A copy of a certificate or proof of meeting the requirements of the emergency medical care prerequisite knowledge requirement as set forth by the Board or one of the following as the Board, by precedence, has approved as meeting this requirement:
 - A. Certificate of Completion for a Department of Transportation course on First Responder.
 - B. National Registration as a First Responder through the National Registry of EMT's.
 - C. National Registration as an Emergency Medical Technician - Basic, Emergency Medical Technician - Intermediate, or Emergency Medical Technician - Paramedic through the National Registry of EMT's.
 - D. Certificate of Completion for a Department of Transportation or Department of Defense course on Emergency Medical Technician - Basic.
 - E. Certificate from the Mississippi State Fire Academy indicating completion of the E-Med Course.
 - F. Certificate of Completion from the Medic First Aid Course.
 6. A copy of properly completed Physicians Medical Examination Report (MSCB Form 4) valid for one year but must be valid from date of exam during all days of the scheduled delivery.
 7. A copy of the Mississippi Training Agility Test Evaluation Form from the Mississippi State Fire Academy indicating successful completion.
 8. Hazardous Materials Awareness and Operations IFSAC Certification
Hazardous Materials Awareness & Operations is offered as an online course administered through MSFA Special/Industrial Bureau

Course Description: This course is designed to meet the uniform minimum training standards stated in Mississippi Code Section 45-11-203 and to meet or exceed the minimum standards of the National Fire Protection Association Fire Fighter Professional Qualification Standards 1001-I-II.

Daily classroom sessions include chapter presentations from Jones & Bartlett Fundamentals of Fire Fighter Skills, Fourth (4th) Edition.

In addition, daily hands-on activities are conducted in order to build skill and enhance knowledge gained. Near the end of the course, students participate in comprehensive activities which require team and individual efforts to accomplish the assigned "mission."

Selection Criteria: Applicants must list hiring date on general admission application. Those who are still within their one-year requirement, or second year extension as specified by the Minimum Standards and Certification Board will be given preference.

Testing: Examinations will be administered throughout the program. Students are encouraged to strive to make their best scores throughout the course. The course includes several fire related topics requiring the successful completion of written and practical skill exams. The student must pass with 70% in both written and skills tests to graduate the 1001 program. Testing will require the student to pass each level (Level I and Level II of

INSTRUCTOR CHIEF MARCUS COLLIER

CERTIFICATION BUREAU

NFPA 1001).

Other:

Admission applications for Fire Fighter 1001 will be held until the applicant meets all prerequisites listed above and all documents have been submitted to the admissions office before being registered in a Fire Fighter 1001 class.

Should a student pre-registered for this course not show up prior to course start date, the entire course fee will be due (\$500). If cancellation is necessary, please cancel at a minimum of two (2) weeks prior to course start date. The Academy is designated by the Department of Veterans Affairs as a NCD (Non-College Degree) school. Funding for Fire Fighter 1001-I-II is eligible for VA educational assistance benefits for eligible students.

Students are required to provide protective clothing which meets NFPA standards. Night classes will be conducted, and weekend assignments may be issued.

FIRE FIGHTER 1001-I-II: FIELD COURSE

Course Number	CC 1001-2014-F	This Course Is Accredited by IFSAC and PROBOARD.	
		Meets requirement set forth by NFPA 1001	
Course Hours:	NFPA 1001-I-II: 280	NFPA 1072:	40
EMS CEU Hours:	48	Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.	
Maximum Enrollment:	15	Minimum Enrollment:	10
Course Fee:	\$500 - Group A	Group B	\$1,185
	This course qualifies for funding through the Workforce Development program for Group A only.		

Date of Delivery: Can be delivered upon the Academy receiving all documents (signed contract) to conduct a field delivery program.

Prerequisites: Successful completion of MSAT and the following eight documents must be on file with the Academy before a Fire Fighter 1001 Applicant will be registered for a class:

1. An MSFA General Admission Application for Fire Fighter 1001-I-II.
2. A copy of a pictured driver's license or other government issued form of pictured identification showing the student is a minimum of 18 years of age. A properly notarized copy of a birth certificate may be used as evidence of meeting this requirement. The driver's license must be legible and not expire during the course delivery.
3. A copy of a standard high school diploma or certificate of GED notarized by the issuing institution or school board. A letter indicating the student's name, social security number and graduation date, issued by the school board will also meet the requirement for this item. A copy of a student issued transcript from a community college or four-year university transcript will also suffice for meeting the minimum requirement of standard high school diploma or certificate of GED.
4. A copy of a current CPR card issued from American Heart Association, American Red Cross, or equivalent. The CPR card must be signed and valid during the course delivery.
5. A copy of a certificate or proof of meeting the requirements of the emergency medical care prerequisite knowledge requirement as set forth by the Board or one of the following as the Board, by precedence, has approved as meeting this requirement:
 - A. Certificate of Completion for a Department of Transportation course on First Responder.
 - B. National Registration as a First Responder through the National Registry of EMT's.
 - C. National Registration as an Emergency Medical Technician - Basic, Emergency Medical Technician - Intermediate, or Emergency Medical Technician - Paramedic through the National Registry of EMT's.
 - D. Certificate of Completion for a Department of Transportation or Department of Defense course on Emergency Medical Technician - Basic.
 - E. Certificate from the Mississippi State Fire Academy indicating completion of the E-Med Course.
 - F. Certificate of Completion from the Medic First Aid Course.

INSTRUCTOR CHIEF MARCUS COLLIER

CERTIFICATION BUREAU

6. A copy of properly completed Physicians Medical Examination Report (MSCB Form 4) valid for one year but must be valid from date of exam during all days of the scheduled delivery.
7. A copy of the Mississippi Training Agility Test Evaluation Form from the Mississippi State Fire Academy indicating successful completion.
8. Hazardous Materials Awareness and Operations IFSAC Certification
Hazardous Materials Awareness and Operations can be offered as a field delivery in conjunction with this class.

Course Description: The Field Delivery is designed to allow the local fire department to deliver the course in a format similar to the on-campus Fire Fighter Program. Each module consists of chapters that will be independently tested in a written test format. Skills will be administered after the written examination. The skills will consist of randomly selected skills from all the chapters that are in the tested module. Classes are delivered in five modules, with one being the Haz Mat section.

Testing: All testing is conducted at the Mississippi State Fire Academy. Testing will be done in modular format. The student must pass with a 70% or greater in both written and skills testing to graduate the NFPA 1001-I-II program. Testing will require the student to pass each level (Level I and Level II of NFPA 1001).

Other: The Hazardous Material for First Responder is a prerequisite for the NFPA 1001-I-II program. The NFPA 1072 Field Program will be delivered in Module 1 (no exceptions). Chapter quizzes and Final Certification Examinations will be delivered on the campus of the Mississippi State Fire Academy. Successful completion of this course requires adherence to the Mississippi State Fire Academy rules and guidelines governing students, maintaining an overall course average of 70% or higher on all the chapter quizzes. Students must achieve a minimum score of 70% on all levels of Certification Examinations. Students must also achieve a minimum overall average of 70% or higher on the skills examination. If dorm is requested for testing purposes, no additional fee is required. Meals are extra if requested and available.

Does Not Include Manual: Jones & Bartlett, Fundamentals of Firefighter Skills, Fourth (4th) Edition

FIRE OFFICER 1021-I-II

Course Number CC 1021 **Meets or exceeds NFPA 1021- This Course Is Accredited by IFSAC and PROBOARD**
Course Hours: 80
EMS CEU Hours: 6 Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.
Maximum Enrollment: 25
Course Fee: \$615 - Group A \$1,125 - Group B
This course qualifies for funding through the Workforce Development program for Group A only.
Dates of Delivery: January 22 – February 1, 2024 June 17–27, 2024
Course Description: This course is designed to enhance the knowledge and skills of future and current fire officers. It will introduce students to various issues and situations that company officers encounter on a daily basis. The course contains lectures, discussions, and class activities that pertain specifically to fire officer duties and responsibilities.
Prerequisites: NFPA 1001- Fire Fighter II and NFPA 1041- Fire Instructor I
Testing: Testing will consist of written and skills evaluations.
Students must pass Fire Officer I to be eligible to meet the requirements for Fire Officer II.
Other: Students are asked to wear fire department uniforms while attending upper-level classes. No casual attire. Students with accessibility to laptop computers are strongly encouraged to bring them to class.

CERTIFICATION BUREAU

Mississippi Executive Fire Officer Program / Fire Officer 1021-III-IV

Course Number	CC 1021-EFO	This Course Is Accredited by IFSAC and PROBOARD			
		Meets or exceeds NFPA 1021 for Fire Officer Level III and IV			
Course Hours:	200 hours				
Maximum Enrollment:	15 per cycle				
Course Fee:	\$943 - Group A	\$1,878 - Group B			
Dates of Delivery:	Session I	March 19–21, 2024	Session III	July 23-25, 2024	
	Session II	May 14-16, 2024	Session IV	September 23-26, 2024	
Prerequisite:	NFPA 1021- Fire Officer II and NFPA 1041-Fire Instructor II				
Audience:	Chiefs of Departments or equivalent positions of management in the fire service (Senior Fire Instructors, County Fire Coordinators, Officers who manage shifts, programs, or divisions, etc.)				
Testing:	Testing will involve the evaluation of various projects completed both on and off-campus. These assignments will be graded on the candidate's understanding of the problem, ability to research and apply information, ability to develop viable solutions, and ability to present findings in a professional manner. Testing will also consist of written examinations conducted during the delivery of the course.				
Other:	Students are asked to wear fire department uniforms while attending upper-level classes. No casual attire.				
	This program is writing and time sensitive. Basic writing skills are necessary to complete this course. As stated in the NFPA standard, students must be able to analyze data and communicate both orally and in writing. Students will be required to write a college paper while attending this class. ALL APPLICATION DOCUMENTS MUST BE SUBMITTED BY FEBRUARY 1, 2024 IN ORDER TO BE CONSIDERED FOR THE MEFO CLASS.				

FIRE INSPECTOR 1031-I

Course Number	CC 1031-I-03	Meets or exceeds NFPA 1031-This Course Is Accredited by IFSAC and PROBOARD			
Course Hours:	80				
EMS CEU Hours:	4	Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.			
Maximum Enrollment:	20				
Course Fee:	\$885 - Group A	\$1,160 - Group B			
Dates of Delivery:	July 8-18, 2024	November 4-14, 2024			
Prerequisite:	None				
Course Description:	This course is designed to prepare the student to perform at the level of Fire Inspector I. Students gain knowledge about development, adoption, and use of fire related codes and standards; authority, jurisdiction, and duty of a Fire Inspector; importance of code enforcement; and critical components of the Inspector's job. The course also prepares students to research code-related problems and present accurate findings.				
Testing:	Testing will consist of written and skills evaluations. Students must pass Fire Inspector I to be eligible to meet the requirements for Fire Inspector II.				
Other:	Basic writing skills are necessary to complete this course. Students must be able to analyze data and communicate both orally and in writing. Students are asked to wear fire department uniform while attending officer-level classes. No casual attire please.

Max Enrollment:	20
Course Fee:	\$25
Dates of Delivery:	Online Course Request form completed and emailed to msfamed@msfa.ms.gov 30 (minimum) days prior to class start date from the department Training Officer
Course Description:	An 8-hour classroom course specifically designed for law enforcement officers and other non-EMS first responders. The course covers materials found in the 16-hour TECC provider course at a level appropriate for first responders. It includes 8 hours of content, which includes interactive lectures, skills stations, and patient simulations. Upon successful completion of the course, students receive a certificate of completion, a wallet card recognizing them as a TECC-LEO provider for 4 years, and 8 hours of CAPCE credit for qualified participants.
Testing:	Post-test

FIRST ON THE SCENE

Course Number:	195-4
Course Hours:	4-hour classroom course
Max Enrollment:	20
Dates of Delivery:	Online Course Request form completed and emailed to msfamed@msfa.ms.gov 30 days (minimum) prior to class start date from the department Training Officer.
Course Description:	<p>First on the Scene (FOTS), developed by NAEMT and the International Association of Fire Chiefs (IAFC), provides instructors with a toolkit to teach the general public basic emergency response to life-threatening emergencies until EMS arrives on the scene. Through lesson presentations and hands-on skill stations, participants will learn how to access help in the event of a life-threatening emergency and what to do until EMS arrives.</p> <p><u>This course covers:</u></p> <ul style="list-style-type: none">Activating the 911 systemHands-only CPR and AEDAdministering naloxoneAdministering epinephrineResponding to life-threatening bleedingPenetrating chest traumaMoving patients to safetyPositioning injured patients.

INSTRUCTOR CHIEF NICK RAGAN

EXTENSION SERVICES BUREAU

The Extension Services Bureau continues to strive our best to train career and volunteer fire fighters all over the state. We provide many classes in the field and on campus for your benefit and the benefit of our citizens. We want to encourage those that are currently on the job to help us find more fire fighters throughout the state to join your respective departments. If you have questions about any of the courses we offer, please contact us and talk to one of our many instructors to help guide you through your training endeavor.

Our full time and adjunct instructor staff have worked hard this year to revise and add new regional fire schools throughout the state. You will find those at the end of this section. Please make note of the LP Burn locations and Fire Fighter Field days so that you can come join us on those dates.

We look forward to serving you in the next year and hope we can continue to provide the training you need for your department. You may also contact your County Fire Coordinator for training opportunities and information.

****IMPORTANT-EFFECTIVE JANUARY 1, 2024, FIRE FIGHTERS WHO ATTEND THE VOLUNTEER CERTIFICATION PROGRAM WILL BE REQUIRED TO COME ON CAMPUS TO TEST SKILLS. THIS CHANGE HAS BEEN MADE THROUGH OUR NEW ADMINISTRATION AND FOR THE BENEFIT OF FIRE FIGHTERS THROUGHOUT THE STATE.**

Shannon Sandridge, Instructor Chief

NATIONAL FIRE ACADEMY PROGRAMS

Through its courses and programs, the National Fire Academy (NFA) works to enhance the ability of fire and emergency services and allied professionals to deal effectively with fire and related emergencies. The Academy's delivery system is diverse. Courses are delivered throughout the state with local fire training organizations and local colleges and universities.

TO REGISTER FOR NFA COURSE DELIVERED IN THE STATE OF MISSISSIPPI

No course fee, however, you must pre-register through the MSFA/NFA coordinator or local host contact to ensure reserved seating.

A National Fire Academy course attendance request application must be received by the Mississippi State Fire Academy's Admission Office no later than 40 days prior to the scheduled class delivery if delivered on campus.

Classes are subject to cancellation or rescheduling by the NFA.

Minimum and maximum enrollment policies may be enforced by the NFA.

\$17 per night dorm fee for on-campus courses.

If weekday, meals \$12 per day extra.

Meals will not be served during weekend classes.

NOTE: Students attending National Fire Academy courses must have completed IS-200 levels of training (or equivalent).

All locations and dates may be subject to change. Registered students will be notified of changes.

REGIONAL TRAINING COURSES

The Mississippi State Fire Academy hosts free regional training throughout the year in all Mississippi counties. **Additionally, the courses listed below are available to all career and volunteer departments within the state.** These courses are regularly reviewed and updated by the MSFA staff. For a current listing of regional classes being conducted in your area visit our website or to deliver any of these classes within your own department contact Extension Services.

*This offering has been approved for EMS continuing education credit by the Mississippi Bureau of Emergency Medical Services.

Protecting Yourself from the Enemy-NEW!!! Classroom - 50% Practical/Skills – 50%

A course that will enhance the knowledge of a trained fire fighter in protecting themselves in the face of danger. The student will understand how the enemy behaves in certain situations and methods to protect yourself and your partner. It will also focus on the importance of 2 in 2 out and protecting your team.

Initial Care Actions for First Responders-NEW!!! Classroom – 50% Practical/Skills – 50%

This course covers the legal and ethical processes for first responders to act in an emergency. It will also focus on initial care of medical patients, patient assessment methodology, and Cardio-Pulmonary resuscitation overview.

EC 1003-12 Introduction to Aircraft Rescue & Firefighting Classroom - 75% Practical/Skills - 25%

All Fire Service Personnel

Course Hours: 12

*EMS CEU Hours: TBD

This course was designed for structural fire fighters to give a basic knowledge of how to safely mitigate an accident involving general aviation aircraft whether on or off airport property. Covering such topics as Airport Familiarization, Aircraft Familiarization, Safety/Hazards, Communications, Extinguishing Agents, ARFF Apparatus, Fire Suppression, Ventilation, Overhaul, Emergency Planning, and Strategic and Tactical Operations. Activities included.

EC 066 Search and Rescue for Disaster Responses Classroom - 75% Practical/Skills - 25%

Fire Fighter - I Level

Course Hours: 12

This course is designed to provide emergency responders with search and rescue skills for responding to disasters such as tornados and hurricanes. This course will review several components in the NFPA 1006 standard and will give students the information needed to perform wide area searches.

EC 067 Fire Attack for the Modern Era Classroom - 50% Practical/Skills - 50%

Fire Fighter - I Level

Course Hours: 12

This course will review the newest research performed by NIST and UL. It will include lessons in critical flow rates, hose line techniques and nozzle handling techniques. This course will also review several tactical considerations for fighting structural fires in the modern era.

EC 009 Mississippi Fire Fighter Safety Classroom - 75% Practical/Skills - 25%

Fire Fighter - I-II Level

Course Hours: 12

*EMS CEU Hours: 4

This course is designed to allow students to focus on issues that affect them and their fire departments. It is not a course about general safety issues. Students are required to look at areas where they must take more responsibility for their safety and the safety of their department members. The course also covers the most recent fire fighter deaths in Mississippi.

INSTRUCTOR CHIEF SHANNON SANDRIDGE

EXTENSION SERVICES BUREAU

EC-FFCS-12 Firefighter Cancer & Cancer Survival Awareness Classroom - 100%

Practical - 0%

ALL Fire Service Personnel

Course Hours: 12

This course is designed to help ALL responders recognize the dangers and focus on cancer awareness in the fire service. This course will cover general firefighter statistics, importance of maintaining PPE, and show different ways firefighters can help reduce cancer within their department(s). Created by responders for responders the ultimate goal of this approach is to train the entire nation's responder community in their personal safety.

EC 096 Rapid Intervention Teams

Classroom - 25%

Practical - 75%

Fire Fighter - II Level

Course Hours: 12

*EMS CEU Hours: 4

This course is designed to prepare fire fighters for "Operations" level RIT duties. It combines both "Awareness" and "Operations" level training for participants who have minimal experience in RIT work, and can be adapted to be utilized for students with various levels of RIT experience.

EC 150-1 Engine Company Operations-Part 1

Classroom - 75%

Practical - 25%

Fire Fighter - II Level

Course Hours: 12

*EMS CEU Hours: 3

This course is designed to give the engine company fire fighter the knowledge, skills, and abilities to function safely and efficiently on a fire scene. This class provides an overview of the duties expected on the fireground with an emphasis on safety. Part 1 of this course addresses: Apparatus Positioning, Rescue, Water Supply, and Initial Attack Lines. The course references the textbook Engine Company Fireground Operations, Third Edition NFPA, Harold Richman, Jones and Bartlett Publishers, ISBN-13: 978-07637-4495-3.

EC 150-2 Engine Company Operations-Part 2

Classroom - 75%

Practical - 25%

Fire Fighter - II Level

Course Hours: 12

*EMS CEU Hours: 3

This course is designed to give the engine company fire fighter the knowledge, skills, and abilities to function safely and efficiently on a fire scene. This class provides an overview of the duties expected on the fireground with an emphasis on safety. Part 2 of this course addresses: Backup Lines, Exposure Problems, Master Stream Appliances, Fire Protection Systems, and Overhaul. The course references the textbook Engine Company Fireground Operations, Third Edition NFPA, Harold Richman, Jones and Bartlett Publishers, ISBN-13: 978-07637-4495-3.

EC 003 Fireground Support Operations

Classroom - 50%

Practical - 50%

Fire Fighter - I-II Level

Course Hours: 12

This course focuses on the very important operations used in conjunction with fire attack procedures to achieve fire suppression and control. Classroom presentations include: Fire Behavior, Ventilation, Ladders, Salvage and Overhaul, Forcible Entry, and Power Tools. Demonstrations and simulations provide practical experience for the participants.

EC 007 The Fire Apparatus Driver

Classroom - 75%

Practical - 25%

Fire Fighter -I-II Level

Course Hours: 12

*EMS CEU Hours: 6

This course is designed to address the everyday challenges of driving a fire apparatus. Subjects covered include: Fire Apparatus Inspection and Maintenance, Operating Emergency Vehicles, Positioning and Spotting the Fire Apparatus, and Recent Incidents Involving Fire Apparatus in Mississippi. Activities include basic operation of a fire apparatus (if allowed by hosting department).

INSTRUCTOR CHIEF SHANNON SANDRIDGE

EXTENSION SERVICES BUREAU

915-M1 Basic Apparatus Pump Operator

Classroom - 50%

Practical - 50%

Fire Fighter -II Level

Course Hours: 12 Hours

Designed to present the fundamentals of pump operation, this course provides the student with the knowledge necessary to become an efficient pump operator. Covering such topics as Pump Design and Maintenance, Pump Types, Hydraulics, Fire Flow, and Pump Operation, this course prepares the student for the critical role of a pump operator on the fire ground.

EC 915-M2 Apparatus Pump Operator for Mobile Water Supply

Classroom - 50%

Practical - 50%

Fire Fighter -II Level

Course Hours: 12

A course designed to cover water supply in rural areas where water shuttle is necessary. It covers many aspects of the use of a mobile water supply including tanker design, water sources, delivery rates, shuttle techniques and operations. A demonstration utilizing local equipment provides a practical display of the concept.

EC 011 Hazardous Materials: Initial Response

Classroom - 60%

Practical - 40%

Fire Fighter - I Level

Course Hours: 12

*EMS CEU Hours: 12

This course covers material outlined in NFPA 472 and OSHA 29 CFR 1910.120 for initial response and action in emergency operations awareness and operational levels. Classroom presentations cover Recognition and Identification of Hazardous Materials, Initial Response Procedures, Safety Zones, Personal Protective Equipment, and Decontamination.

EC 012 Automobile Extrication

Classroom - 50%

Practical/Skills - 50%

Fire Fighter - I Level

Course Hours: 12

*EMS CEU Hours: 12

This course is an excellent guide to the basic methods of auto extrication, covering the subjects of scene safety and stabilization, patient care, and actual extrication techniques. The student is exposed to various methods and tools needed to perform an extrication. Hands-on practical demonstrations allow the students to utilize the local equipment in performing simulated rescues. A special thanks to the New Albany Fire Department for video demonstrations used in this course.

EC 041 Training, Responding and Returning Home Alive

Classroom - 80%

Practical/Skills - 20%

Fire Fighter - I & II Level

Course Hours: 12

*EMS CEU Hours: 8

This course is not a typical safety and survival course. It is very interactive. This course allows the students to measure how much progress we (Mississippi fire fighters) have made in being able to survive the dangers of firefighting. It also allows students to look at themselves and determine whether they are part of the problem or part of the solution. NIMS issues are included in the unit addressing incident safety. Other subjects include Fire Department Risk Management, Vehicle Response and Highway Safety, Keeping Training Safe, and Our Survival Challenge in Mississippi.

EC 041 The 10 Commandments of Effective and Safe Fireground Management - Classroom – 100%

Fire fighter – I & II Level

Course Hours: 12

*EMS CEU Hours: 8

Fire Fighter - II Level

Course Hours: 12

*EMS CEU Hours: 12

This course is designed to give fire fighters the opportunity to learn about the responsibilities of the Incident Safety Officer and what fire fighters can do to support the function of the safety officer at all types of incidents. Students should have a thorough understanding of the Incident Command System (ICS). The course will allow great opportunities for departments to address previous incident safety issues and be proactive for possible future incidents.

INSTRUCTOR CHIEF SHANNON SANDRIDGE

EXTENSION SERVICES BUREAU

EC 160-PA Managing the Rural Emergency and Personal Accountability Classroom - 50% Practical/Skills-50%

Fire Fighter - II Level

Course Hours: 12

This course is designed to merge the Incident Command System with the 2-in-2-out rule. Appropriate for career or volunteer departments in rural or urban settings, classroom sessions involve activities focusing on command responsibilities, staff position roles, and most importantly, fire fighter accountability.

EC 152 Strategies for Fire Fighter Personal Success Classroom - 50% Practical/Skills - 50%

Fire Fighter - II Level

Course Hours: 12

*EMS CEU Hours: 2

This course provides the company officer, or future company officer, with the basic leadership skills and tools needed to perform effectively in the fire service environment. The course addresses Ethics Use and Abuse of Power at the Company Officer Level, Creativity in the Fire Service Environment, and Management of the Multiple Roles of the Company Officer. The course can be especially useful for departments to prepare personnel to eventually advance to higher ranks such as lieutenant, captain, assistant chief, training officer, and fire chief.

EC 153-1 Fire Fighter Essential Skills – I Classroom- 25% Practical/Skills 75%

This course is designed to enhance/refresh fire fighter skills. The course uses sections from the MS Volunteer Fire Fighter Course and NFPA 1001. Recently updated, this course includes fire fighter safety and health, PPE, communications, fire behavior, extinguishers, and tools and equipment. In addition to refreshing skills, the course is also useful to prepare new fire fighters for the MS Volunteer Fire Fighter course.

EC 153-2 Fire Fighter Essential Skills – II Classroom- 25% Practical/Skills 75%

This course is designed to enhance/refresh fire fighter skills. The course uses sections from the MS Volunteer Fire Fighter Course and NFPA 1001. Recently updated, this course includes building construction, ropes/knots, search/rescue, ladders, water supply, hose and nozzles. In addition to refreshing skills, the course is also useful to prepare new fire fighters for the MS Volunteer Fire Fighter course.

EC 153-3 Fire Fighter Essential Skills – III Classroom- 25% Practical/Skills 75%

This course is designed to enhance/refresh fire fighter skills. The course uses sections from the MS Volunteer Fire Fighter Course and NFPA 1001. Recently updated, this course includes ventilation, supply and attack lines, fire suppression and fire fighter rehabilitation. In addition to refreshing skills, the course is also useful to prepare new fire fighters for the MS Volunteer Fire Fighter course.

EC 152-4 Fire Fighter Essential Skills – IV Classroom- 25% Practical/Skills 75%

This course is designed to enhance/refresh fire fighter skills. The course uses sections from the MS Volunteer Fire Fighter Course and NFPA 1001. Recently updated, this course includes forcible entry, fire fighter survival, salvage and overhaul, and wildland fires. In addition to refreshing skills, the course is also useful to prepare new fire fighters for the MS Volunteer Fire Fighter course.

EC 153-5 Fire Fighter Essential Skills – V

This course is designed to enhance/refresh fire fighter skills. The course uses sections from the MS Volunteer Fire Fighter Course and NFPA 1001. Recently updated, this course includes incident command, advanced fire suppression, and vehicle extrication. In addition to refreshing skills, the course is also useful to prepare new fire fighters for the MS Volunteer Fire Fighter course.

EC 153-6 Fire Fighter Essential Skills – VI

This course is designed to enhance/refresh fire fighter skills. The course uses sections from the MS Volunteer Fire Fighter Course and NFPA 1001. Recently updated, this course includes fire cause and origin, assisting special rescue teams, fire detection and suppression systems. In addition to refreshing skills, the course is also useful to prepare new fire fighters for the MS Volunteer Fire Fighter course.

EXTENSION SERVICES BUREAU

TIM 12 EC National Traffic Incident Management: Responder Training Program Classroom - 75% Practical/Skills - 25%

All Fire Service Personnel

Course Hours: 12

This National Unified Program is designed to help **ALL responders** recognize the dangers encountered by emergency responders working in or near traffic. The Strategic Highway Research program, authorized by Congress, focuses on research on responder safety and safe, quick clearance. Created by responders for responders, the ultimate goal of this approach is to train the entire nation's responder community, including all disciplines, to be compliant. This program is facilitated by the Mississippi State Fire Academy for the Mississippi Department of Transportation.

INTER-DEPARTMENTAL COURSES

This program was implemented to provide local fire departments with very short courses to serve as continuing education and in-house refresher. The training is available in 2-, 4-, and 8-hour courses. Departments may complete these in any order they desire. Contact Extension Services Bureau for instructions for requesting and delivering the in-service programs in your department. Students will not receive certificates for these courses.

2-HOUR COURSES

EC FD2-VF Response to New Vehicle Fires

Fire Fighter - I Level

*EMS CEU Hours: 2

This course focuses on categories and hazards of new vehicles and vehicle fire extinguishment and safety.

EC FD2-EH Electrical Hazards on the Emergency Scene

Classroom/Discussion - 100%

Fire Fighter - I & II Level

*EMS CEU Hours: 2

This course focuses on the basic issues involving electrical hazards encountered by a fire fighter while on a scene. Core topics include Safety, SOP's, Size-Up, and Residential, Industrial & Vehicle Hazards.

FD2-NG Natural Gas Considerations for Fire Departments

Classroom - 100%

This course addresses the basic issues for fire departments to consider when responding to potential natural gas incidents. Some of the subject areas include Ignition Sources, Visual Clues, and General Tactics.

EC FD2-ETH Fire Service Ethics

Classroom/Discussion - 100%

This course focuses on how individual behavior impacts decision-making and leadership in organizational and personal settings. Other subjects include Recognizing the Risks and Rewards of Ethical Decision-Making, Leadership Responsibility, and Ethics and Values.

EC-CHEM-2 CHEMPACK: Emergency Planning & Response Program

Classroom/Discussion - 100%

ALL Fire Service Personnel

Course Hours: 2

This course is an introduction to the Centers for Disease Control's CHEMPACK program and its origins. It will teach types of chemical warfare agents and organophosphate poisons, signs & symptoms of contamination, what actions to take in the event of a chemical attack or organophosphate incident, and how to request aid and assistance. **CHEMPACK is a lifesaving program that relies on the awareness and knowledge of ALL public safety.** Your ability to recognize and quickly react will make the difference in life or death when minutes matter the most.

INSTRUCTOR CHIEF SHANNON SANDRIDGE

EXTENSION SERVICES BUREAU

4-HOUR COURSES

EC FD4-FB Fire Behavior-NEW!!!

Classroom- 100%

Fire Fighter-I Level

Course Hours: 4

This course focuses on educating the fire fighter on fire behavior issues to be able to better combat our enemy. Student will leave the course with a better understanding of the development and stages of fire. The course also focuses on the dangerous phenomenon of Backdraft and Flashover.

EC FD4-NV Navigating the Emergency Response Guidebook-NEW!!!

Fire Fighter-I Level

Course Hours: 4

This course is set up to teach the first responder the basic techniques to utilize the DOT Emergency Response Guidebook. This knowledge is critical when dealing with a minor or major hazardous materials incident. The initial actions taken can be the difference in life and death in citizens and first responders.

FD4-10 2-In-2-Out and Personnel Accountability

Classroom - 75%

Skills - 25%

Fire Fighter - II Level

Course Hours: 4

*EMS CEU Hours: 4

This course addresses the ever-important concept of 2 fire fighters in and 2 fire fighters out. Additionally, it addresses methods to improve personnel accountability.

EC FD4-EMR Operating Emergency Vehicles-Annual Refresher

Classroom - 50%

Skills - 50%

Fire Fighter - I & II Level

Course Hours: 4

This course is designed to serve as an annual refresher for ALL fire service personnel. Drivers of fire apparatus, rescue vehicles, and other fire department vehicles should participate.

EC FD4-FSR Fire Fighter Self Rescue

Classroom - 75%

Skills - 25%

Fire Fighter - II Level

Course Hours: 4

*EMS CEU Hours: 4

This course is designed to help the fire fighter understand the concepts of self-rescue, rapid intervention teams, responsibilities of the RIT officer/leader and members, and to help the firefighter identify basic tools for RIT and search and rescue.

EC TIM 4 National Traffic Incident (TIM) Management: Responder Training Program

Classroom - 75%

Practical/Skills - 25%

All Fire Service Personnel

Course Hours: 4

This National Unified Program is designed to help **ALL responders** recognize the dangers encountered by emergency responders working in or near traffic. The Strategic Highway Research program, authorized by Congress, focuses on research on responder safety and safe, quick clearance. Created by responders for responders, the ultimate goal of this approach is to train the entire nation's responder community including all disciplines to be compliant. This program is facilitated by the Mississippi State Fire Academy for the Mississippi Department of Transportation. Delivered in two-2-hour formats for your convenience.

EC-FFCS-4 Firefighter Cancer & Cancer Survival Awareness

Classroom - 100%

ALL Fire Service Personnel

Course Hours: 4

This course is designed to help ALL responders recognize the dangers and focus on cancer awareness in the fire service. This course will cover general firefighter statistics, importance of maintaining PPE, and show different ways firefighters can help reduce cancer within their department(s). Created by responders for responders the ultimate goal of this approach is to train the entire nation's responder community in their personal safety.

8-HOUR COURSES

EMS OP8 EMS Support Operations

Classroom - 75%

Skills - 25%

Fire Fighter - I Level Course Hours: 8

This course is designed for those that do not have formal emergency medical training but may find themselves functioning in a support role on a medical scene. Topics covered include Patient History Taking, Scene Safety, Verbal Patient Assessment, Medical and Trauma Emergencies, Environmental Emergencies, Poisonings and Landing Zone Operations for Aeromedical Transport. This course also serves as a knowledge reinforcement for the EMR, EMT, or Paramedic. This course is designed to accompany a standard 4-hour CPR/AED class taught by a certified instructor. (Note: Any CPR certifications will be issued by the instructor through his or her certifying entity, not the MSFA.)

EC 914-F8 Overview of Apparatus Pump Operations: Annual Refresher

Classroom - 75%

Practical - 25%

Fire Fighter -I & II Level Course Hours: 8

This course includes general fire apparatus pumping procedures, fire pump operations, and pumping techniques. It is designed for individuals responsible for operating fire apparatus pumps at emergency scenes and training incidents. This course references NFPA Standard 1002.

EC 922-8F Basic Aerial Operations: Annual Refresher

Classroom - 75%

Skills - 25%

This course is designed to refresh students' basic knowledge of various systems found on aerial apparatus, aerial operations, and maintenance. This course references NFPA Standard 1002.

FIRE ACADEMY FOR ELECTED/PUBLIC OFFICIALS

Course Number EC 175

Course Hours: 8 Participants will also receive 4 CMO elective hours for municipal elected officials.

Course Fee: None

Meals: Breakfast \$6.00 and/or Lunch \$6.00 if requested. Cash only.

Dates of Delivery: October 24, 2024

Target Audience: Elected and public officials whose jurisdiction is protected by a state, municipal, or county fire department.

Note: Students are required to have a member of their local fire departments present. Students are also required to bring a full set of turn-out gear and SCBA (furnished by their local fire departments if they will participate in firefighting optional activities).

INSTRUCTOR CHIEF SHANNON SANDRIDGE

EXTENSION SERVICES BUREAU

MISSISSIPPI FIRE CHIEF DESIGNATION PROGRAM (MFCD)

The purpose of this program is to provide an established set of standards for chiefs of fire departments in the State of Mississippi.

What It Is: Fire chiefs may apply to receive the designation of Mississippi Fire Chief. Although many chiefs may carry the title of Fire Chief, the opportunity to receive the accomplishment of Designated Mississippi Fire Chief shall be from those who demonstrate their willingness to promote and support the Mississippi Fire Service & possess the established knowledge, skills, and ability expected of a Mississippi Fire Chief

Who Is Eligible: This designation is limited to those personnel who are currently serving in the position of Fire Chief (chief of the department) or other personnel who are head of their fire service organizations. Examples of this include County Fire Coordinator, Director of Fire Services, and Executive Director. This designation is available to career and volunteer Fire Chiefs. Personnel who serve in positions such as Deputy Fire Chief, Assistant Fire Chief, etc., are NOT eligible.

MISSISSIPPI CHIEF FIRE OFFICER DESIGNATION PROGRAM (MCFOD)

Purpose: The purpose of this program is to provide an established set of standards for the Chief Fire Officer of fire departments in the state of Mississippi.

What It Is: Chief Fire Officers may apply to receive the designation of Mississippi Chief Fire Officer. Although many chief officers may carry the title of Chief Fire Officer, the opportunity to receive the accomplishment of Designated Mississippi Chief Fire Officer shall be from those who demonstrate their willingness to promote and support the Mississippi Fire Service, & possess the established knowledge, skills, and ability expected of a Mississippi Chief Fire Officer

Who Is Eligible: This designation is limited to those personnel who are currently serving in the position of Deputy Fire Chief Assistant Fire Chief, Division Fire Chief, etc. This designation is available to career and volunteer personnel. Both programs are a consolidated effort between the Mississippi Fire Chiefs Association and the Mississippi State Fire Academy. Both designation programs are not mandatory but are created and endorsed by the Mississippi Fire Chiefs Association.

Please contact the Designation Program Coordinator for general information and requirements for either Designation Program.

INSTRUCTOR CHIEF SHANNON SANDRIDGE

SPECIAL/INDUSTRIAL BUREAU

The Special/Industrial Bureau proudly offers courses to fire and emergency response personnel in the public and private sectors. Courses offered include Technical Rescue, Hazardous Materials, Advanced Firefighting, Water Rescue, and Industrial Emergency Response.

Changes to course formats in 2024 to be aware of:

NFPA 470 Hazardous Materials Awareness and Operations and NFPA 470 Hazardous Materials Technician-I will be delivered in a hybrid format. These changes are to accommodate the new 2024 NFPA 470 Standard and Job Performance Requirements (JPRs) for the Hazardous Materials discipline. The courses will be delivered in a hybrid format over a period of three (3) weeks. The first 2 weeks will be conducted online via the MSFA Learning Management System (LMS). The online portion will be a self-study module. The third week will be held on campus at the MSFA for in-person training and testing.

Surface water & Swiftwater Rescue Technician will be delivered in a two-session format. The purpose for this change is to better optimize use of the new training site in addition to accommodating travel.

The staff also continues to customize courses for our industrial clients through negotiated contract. These custom courses may incorporate all or part of any program offered. We recommend that our industrial clients contact us to schedule classes as early as possible, to help ensure staff and facility availability.

The cost of some of our courses are reduced, thanks to grant funds. As always, we must express our appreciation to the Mississippi Emergency Management Agency (MEMA) for their generous support in programs such as Hazardous Materials and Confined Space Rescue.

The staff of the Special/Industrial Bureau looks forward to meeting your training needs in 2024. If we can be of assistance, please contact me via the information below

INSTRUCTOR CHIEF NICK RAGAN

SPECIAL/INDUSTRIAL BUREAU

FIREGROUND LEADERSHIP

Course Number: SC 611
Course Hours: 40
EMS CEU Hours: 4 Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.
Maximum Enrollment: 20 Minimum Enrollment: 10
Dates of Delivery: January 8-12, 2024 February 12-15, 2024 November 4-7, 2024
Course Fee: \$360 - Group A \$495 - Group B

Course Description: This course is designed to address the management needs of first-in engine company officers or officials who are responsible for emergency response actions, including the direct supervision of other fire personnel, prior to the arrival of higher-ranking departmental officials. The main focus of the course is to advance the ability of the initial officer in charge of the scene of a fire situation to safely manage the response actions of assigned personnel. The course curriculum includes preparation for response, decision-making, and tactical operations.

NOTE: Student must bring NFPA approved structural firefighting protective clothing. This includes helmet, coat, pants, boots, hood, and gloves. SCBA will be provided.

FIRE SERVICE MANAGEMENT - 101

Course Number: SC 601
Course Hours: 40
EMS CEU Hours: 4 Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.
Maximum Enrollment: 24
Minimum Enrollment: 16
Dates of Delivery: August 12-15, 2024
Course Fee: \$415 - Group A \$550 - Group B

Course Description: This course is designed to assist the personnel currently serving as officers in the public fire service in addressing information not normally found in other Academy courses. Course focuses on the individual fire officer and varied management and supervisory issues. Information presented will assist the fire officer in making informed decisions required for personnel supervision and organizational change. Specifically, participants will be introduced to subjects such as: the legal aspects of providing fire protection, purchasing laws and regulations, equipment management issues, auditing issues, organizational relationship to the Mississippi Rating Bureau, sexual harassment, and conflict resolution.

SPECIAL/INDUSTRIAL BUREAU

SMOKE DIVER

Course Number:	SC 500		
Course Hours:	40		
EMS CEU Hours:	12	Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.	
Maximum Enrollment:	30	Minimum Enrollment:	15
Course Fee:	\$420 - Group A	\$555 - Group B	
Dates of Delivery:	February 26-29, 2024	November 18-21, 2024	
Prerequisite:	Documented Fire Fighter 1001-I-II or Volunteer Certification Level I Training. Students are required to have the Mississippi State Fire Academy Physical Examination Form completed and signed by a Medical Doctor or Doctor of Osteopathy per the NFPA 1582 4.1.4. (Form can be found on Academy website). Will be valid for one year from date signed by Medical Doctor or Doctor of Osteopathy. Entity will be billed for entire course fee for registered students who fail to report for class, those who fail physical agility assessment, or withdrawal during the course.		
Physical Agility Test:	Required and will be administered as the first training activity. Students who fail the physical agility test will not be allowed to continue the course.		
Course Description:	This is a physically demanding, advanced fire fighter course with a focus on fire suppression and structure fire rescue. The course activities are designed to provide realistic fireground working conditions, requiring the student to learn as a team member the limitations of equipment and physical conditioning. Course activities are designed to teach: the limitations of fire fighter personal protective equipment, tactics involving flammable liquid and gas scenarios, structure fire rescue techniques, navigating in fire structures in zero visibility conditions, hose line techniques utilizing 1 3/4" and 2 1/2" attack lines, tactics for interior fire attack, and rappelling while utilizing fire fighter protective equipment. The emphasis of this class is personal fire fighter safety while functioning as a team member, exposing the student to a multitude of scenarios designed to be as realistic as possible.		
Other:	Students are required to have NFPA full protective clothing, including SCBA and a spare cylinder which meets the NFPA 1981 standard. Students who withdraw from the course must complete another smoke diver course in its entirety to receive certification. The Academy does not furnish student SCBA for this course.		

SMOKE DIVER PHYSICAL AGILITY TEST MINIMUM STANDARDS

1. Mile and one-half run under 12 minutes.
2. Forty-five (45) bent knee sit-ups under 2 minutes. (Candidate's legs shall be bent to approximate 45-degree angle. Feet shall be held in place by a designated assistant. Arms shall be crossed on the chest with hand palms against chest. Crossed forearms shall maintain contact with chest when raising body. Candidate shall raise upper body until crossed forearms make contact with thighs. Shoulder blades shall make contact with ground when body is lowered.)
3. Twenty-five (25) push-ups under 2 minutes without returning to beginning rest position.
4. Seven (7) pull-ups (starting position is palms away, arms fully extended downward with the feet off the ground, pull body up until chin is ABOVE bar, and return to starting position, repetitively, without releasing the bar or touching the ground.)
5. Carry two sections of 2 1/2" hose in a self-locking doughnut roll up and back down four flights of stairs without stopping or falling.

ROPE RESCUE AWARENESS & OPERATIONS (ROPE LEVEL I)

Course Number:	SC 530-1	This Course Is Accredited By PROBOARD.	
Course Hours:	40		
EMS CEU Hours:	12	Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.	
Maximum Enrollment:	20	Minimum Enrollment: 10	
Course Fee:	\$365 - Group A	\$505 - Group B	
Dates of Delivery:	May 20-23, 2024	June 24-27, 2024	August 5-8, 2024
Course Description	This course is an introduction to the subject of high angle rescue. It is designed to build students' confidence in their ability to use modern rope rescue techniques. Throughout the course, emphasis is placed on safety of both the victim and the rescuer. Subjects include basic information on ropes and knots, rigging, simple mechanical advantages, and other related equipment. The primary purpose of this course is to provide students with a safe environment to learn proper techniques in anchor identification, rappelling, gaining access to victims, and in building both individual and team confidence. This course references NFPA 1006 Chapters 5. Students must achieve a 70% or greater on exam and practice skills testing in order to receive a certificate.		
Other:	Students will not be allowed to use personal rescue equipment during the course (except seat harness which must be approved prior to start of class). Short pants will not be allowed, and hard sole boots are mandatory during field activities. Students should bring a rescue helmet and gloves to class.		

RESCUE TECHNICIAN (ROPE LEVEL II)

Course Number:	SC 530-2	This Course Is Accredited By PROBOARD.	
Course Hours:	40		
EMS CEU Hours:	12	Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.	
Maximum Enrollment:	20	Minimum Enrollment: 10	
Course Fee:	\$365 - Group A	\$505 - Group B	
Dates of Delivery:	June 3-6, 2024	July 8-11, 2024	August 19-22, 2024
Prerequisite:	Rope Rescue Awareness & Operations (Rope level I)		
	Skills Entrance Test Required		
Course Description:	This course reinforces the basics learned and demonstrated in Rope Rescue Awareness & Operations and begins to provide to the student methods to learn advanced high angle rescue techniques. Included in the course are complex anchors, advanced hauling systems, specialized patient packaging and scenarios utilizing high angle facilities at the Academy. Team leader functions are rotated among all participants to facilitate the development of leadership skills during rescue activities. All participants will function as a rescuer, safety, belay, and team leader during scenario-based training activities. This course references NFPA 1006 Chapter 5. Students Must Pass Entrance Skills On The First Day To Continue In Course . Students must achieve a 70% or greater on exam and practical skills testing in order to receive a certificate.		
Other:	Students will not be allowed to use personal rescue equipment during the course (except seat harness which must be approved prior to start of class). Short pants will not be allowed, and hard sole boots are mandatory during field activities. Students should review and bring information acquired during Rope Rescue I to class. Students should bring a rescue helmet and gloves to class.

Course Fee: \$400 - Group A \$540 - Group B
Dates of Delivery: April 22-26, 2024 October 7-11, 2024
Prerequisites: NFPA 472 Hazardous Materials Operations & NFPA 1006 Confined Space Rescue Technician

Course Description: The Vehicle Extrication & Rescue Technician program utilizes the textbook: *Vehicle Extrication Levels 1 & 2: Principles and Practice*. The text consists of thirteen chapters and addresses fundamental skills through heavier commercial vehicles. The course is designed with 25% lecture and 75% hands-on training. Topics covered include conventional hydraulic extrication, buttress stabilization systems, hand tool extrication techniques, stabilizing, lifting, and medical considerations. Students must achieve a 70% or greater on exams at Awareness, Operations and Technician Level, as well as practical skills testing in order to receive a certificate.

Note: Required PPE: NFPA compliant full turnout gear or extrication suit (fire retardant jumpsuit), hard hat or firefighting helmet, work gloves, steel toed boots, and OSHA approved safety glasses.

Students will not be allowed to participate in training without all safety equipment.

SPECIAL/INDUSTRIAL BUREAU

CERTIFIED ADVANCED RESCUE SPECIALIST (CARS)

Course Number: SC 536
Course Hours: 40
EMS CEU Hours: 12 Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.
Maximum Enrollment: 20 Minimum Enrollment: 10
Course Fee: \$400 - Group A \$535 - Group B
Dates of Delivery: June 17-20, 2024
Prerequisites: 1) Documented emergency medical care training to First Responder level,
2) Mississippi Smoke Diver,
3) Rope Rescue-II, and
4) any three (3) of:
- Hazardous Materials Tech-I - Confined Space Rescue - Dive Rescue Specialist
- F.I.R.S.T. - Vehicle Extrication & Rescue - Trench Rescue Technician
- Swiftwater Rescue Technician - Structural Collapse Technician

Course Description: This course is designed to bring together different types of rescue subject matter into one course. It develops through realistic, scenario-based training, team leader decision making necessary to accomplish rescue tactics in a safe manner. Course reinforces information found in earlier course prerequisites and seeks to demonstrate how the application of this information can be modified and applied to solve various rescue situations. Course includes topographical map reading, compasses and their use, and overland rescue techniques, to complement other subject matter from disciplines such as structural firefighting, hazardous materials, rope and confined space rescue.

Other: The class is for individuals who can swim, have no fear of heights, are not claustrophobic, can fight interior structure fires, and understand hazardous materials terminology. Students are required to have NFPA full protective clothing, including SCBA which meets the NFPA 1981 standard. Students who withdraw from the course for any reason must complete another course in its entirety to receive certification.

Students should bring a rescue helmet and gloves to class.

SPECIAL/INDUSTRIAL BUREAU

TOWER RESCUE TECHNICIAN

Course Number:	SC 543		
Course Hours:	40		
Maximum Enrollment:	12		
Course Fee:	\$400		
Dates of Delivery:	October 21-24, 2024		
Prerequisite:	Rope Rescue Technician (2010 or later) & Confined Space Rescue Technician Prerequisites and Entry Skills Test Required		
Course Description:	The Tower Rescue Technician Course meets the requirements of Chapter 4 of the 2017 Edition of NFPA 1006 Standard for Technical Rescuer Professional Qualifications. Students will build upon skills learned in their previous courses and work to solve complex problems in small teams at height. The course is 20% lecture and 80% hands-on training. Topics include controlling hazardous energy and monitoring for radio frequency (RF) radiation. The rescue topics in the course include basic-intermediate rope access, climbing elevated structures, the use of lanyards and back-up devices, raises and lowers, pick-offs, and multi-pitch tower rescue. Topics in this course can be applied to any elevated structures from communications towers to billboards to industrial facilities. Students Must Pass Entrance Skills On First Day To Continue In Course. Students must achieve a 70% or greater on all exams and practical skills assessments in order to receive a certificate.		
Other:	Students are encouraged to bring their own harness, ascending system, descender, and other rescue kits they might use in the field. All gear is subject to inspection and should be of safe condition and age. Short pants will not be allowed, hard sole boots are mandatory during field activities. Students should review and bring information acquired during Rope Rescue 2 to class. Students should bring a rescue helmet and gloves to class.		
Ascending:	Ascend 30' on a conventional sit-stand / rope access ascending system. Demonstrate the ability to down-climb 10'. Change over to descent on an approved auto-locking descender. Rappel to the ground. Complete in under 12 minutes. Two attempts allowed.		
Tie:	Figure Eight on a Bite	Double Loop Figure Eight	Clove Hitch
	Bowline	Prusik Hitch	Munter Hitch w/Tie-Off
	Square Knot Double	Fisherman's Knot	Water Knot in Webbing
Tie/Anchor:	Tensionless Anchor	Wrap-3	Pull 2 Anchor
Rig/Operate:	3:1 Z-Rig Mechanical Advantage System

ADVANCED ROPE RESCUE WORKSHOP: WILDERNESS

Course Number	SC 547		
Course Hours:	24		
Maximum Enrollment:	12		
Course Fee:	\$60		
Delivery Date	TBD		
Prerequisite:	Rope Rescue Level 2 (2010 or later MSFA)		
	Prerequisites and Entry Skills Test Required		
Course Description:	<p>This advanced rescue workshop will take students out of their customary urban / industrial setting and to the pristine cliffs of northeast Mississippi. The course will build on skills acquired in NFPA Rope Rescue Level 2 (Technician) and apply them to the wilderness environment.</p> <p>Topics include artificial anchors, artificial high directional (AHDs), litter tending, horizontal rope systems, and an emphasis on individual movement on rope. The course will take place Friday morning until Sunday lunch (24 hours total). The enrollment is limited to 12 attendees. Students will be required to perform a skills demonstration of ascending with change-overs, knots, and MAs, prior to participating in the workshop.</p>		
NOTE:	Students are responsible for meals and lodging. Lunches will be backpacked into the field. Camping, RV access, and cabins are available through Tishomingo State Park.		
Other:	<p>Students are encouraged to bring their own harness, ascending system, descender, and other rescue kit they might use in the field. All gear is subject to inspection and should be of safe condition and age. Short pants will not be allowed, and hard sole boots are mandatory during field activities. INSTRUCTOR CHIEF NICK RAGAN

SPECIAL/INDUSTRIAL BUREAU

Course Description: This course will build upon the information established in Hazardous Materials Awareness and Operation. The text consists of chapters including *Review of Haz Mat Competencies, Scene Management, Chemical and Physical Properties, Chemistry and Hazards, Exposure Assessment and Toxicology, Hazard and Response Information, Detection and Monitoring, PPE, Decontamination, Container Identification, Product Control and Demobilization and Termination*. The course will be delivered in a hybrid format over a period of three (3) weeks. The first 2 weeks will be conducted online via the MSFA Learning Management System (LMS). The online portion will be a self-study module. The third week will be held on campus at the MSFA for in-person training and testing. Students must achieve a minimum of 70% on the cognitive portion and skills to qualify for the certification final.

Note: Due to the content of the text used in this course, it is recommended that students acquire and start reading the student manual prior to attending this class.
Two (2) field deliveries will be offered in Spring 2022. One in North, MS another in South, MS Updates will be provided via Website and/or Social Media

HAZARDOUS MATERIALS TECHNICIAN - II

Course Number: SC 472-T2
Course Hours: 45
EMS CEU Hours: 32 Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.
Maximum Enrollment: 20 Minimum Enrollment: 10
Course Fee: \$0 - Group A \$630 - Group B
The Group A course fee is covered by a grant from the MEMA.
Dates of Delivery: January 15-18, 2024 August 26-29, 2024
Prerequisite: Hazardous Materials Technician-I
Course Description: This course builds upon the information established in the Haz Mat Tech-I course. Students should bring information acquired during Tech-I to build upon it. Testing will also be required just as in the Tech-I course, with a comprehensive review of past nomenclature and information. Review of information will be brief to maintain a level of 50% hands-on activity and 50% lecture. Further information will be provided in areas such as monitoring devices, railroad tank car and highway tanker valving arrangements and nomenclature. A variety of scenarios will be demonstrated, using small teams, to reinforce subject presented in the classroom.

Note: Due to the content of the text used in this course, it is recommended that students acquire and start reading the student manual prior to attending this class.

INCIDENT MANAGEMENT OF HAZARDOUS MATERIALS

Course Number: SC 472-IC
Course Hours: 45
EMS CEU Hours: 16
Maximum Enrollment: 10
Course Fee: \$0 - Group A \$630 - Group B
The Group A course fee is covered by a grant from the MEMA.

Dates of Delivery: **August 26-29, 2024**

Prerequisite: Hazardous Materials Technician Level I or equivalent
ICS 100,200,700, 300 or equivalent

Course Description: The primary focus for this course is to emphasize the importance of command and control at incidents involving Hazardous materials. This course will require participants to manage and lead incidents involving actual hazardous material technicians mitigating emergencies. Participants will be required to complete all necessary NIMS/ICS documents, produce Incident Action Plans (IAP's), develop specific Site Safety Plans, conduct safety briefing, lead in criminal investigations as well as any forms and documents related to criminal or terrorist investigations, incident briefs, and other task associated with actual hands-on scenario-based activities. This course will be lecture, and interactive with students in hand on scenarios. The in-depth planning and decision-making processes involved in this course will prepare the participants to managing and documenting responses to real world emergencies involving hazardous materials.

Note: Due to the content of this course, it is recommended that students review materials that were covered in the hazardous materials technician course and be familiar with the types of containers used in surface transportation and the concepts used to mitigate them. This class is only 10 % classroom and the remainder of the class requires individuals to serve in actual leadership positions to manage technicians responding to scenario-based emergencies.

HAZARDOUS MATERIALS TECHNICIAN FIELD DELIVERY

Accredited by IFSAC and PROBOARD. This course is provided through a combination of online and off-campus delivery, upon written request and availability of staffing.

Course Hours: 80 Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.

Maximum Enrollment: 20 Minimum Enrollment: 10

Course Fee: The course fee may be covered by a grant from MEMA. Call for information.

Course Description: This course will build upon the information establish in Hazardous Materials Awareness and Operation. The text consists of chapters including Review of Haz Mat Competencies, Scene Management, Chemical and Physical Properties, Chemistry and Hazards, Exposure Assessment and Toxicology, Hazard and Response Information, Detection and Monitoring, PPE, Decontamination, Container Identification, Product Control and Demobilization and Termination. Students must achieve a minimum of 70% on the cognitive portion and skills to qualify for the certification final.

Note: Available for Group A only, statewide upon written request and mutually agreed upon dates, and dependent on federal funding and available instructional staff. Contact the Admissions Office for details.

NFA CHEMISTRY OF HAZARDOUS MATERIALS: FIRE CHEM I

Course Number SC 540-FCI

Course Hours: 80

EMS CEU Hours: 36 Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.

Maximum Enrollment: 20

Course Fee: \$0 - Group A \$805 - Group B

The Group A course fee is covered by a grant from the MEMA.

Dates of Delivery: June 10-20, 2024

Prerequisite: **Complete pre-course studies: *Foundational Concepts of Chemistry (Q228)*, NFA on-line course.**

Course Description: This course provides the basic knowledge required to evaluate the potential hazards and behaviors of materials considered to be hazardous for one or a combination of reasons. Directed at the underlying reasons for the chemical behavior of hazardous materials, the course is designed to improve decision-making, safety in operations at incidents, and the possible complex handling problems of materials when they are released from their containers. The course is chemistry oriented, but students without any chemistry background can complete the course of instruction. Students attending this course should be emergency response personnel who have the responsibility for analysis, management, and/or tactical response to a hazardous materials incident, or fire prevention, investigation or inspection personnel who need some knowledge of the hazardous properties of substances.

INDUSTRIAL ON-SITE TRAINING PROGRAMS

EMS CEU Hours: 14 Approved for EMS CEU by the Mississippi Bureau of Emergency Medical Services.

Dates of Delivery: Available upon organizational request

The Academy has for several years offered training in an off-campus format. The types of programs the instructional personnel have provided throughout the state are:

- Rescue (High Angle, Below Grade, and Confined Space)
- Fire Suppression (Incipient and Structural)
- Hazardous Materials (Awareness, Operational, Technician, Specialist, and Incident Commander)
- Fire Officer and Instructional Techniques

These courses have been designed to meet the clients' needs and have often been mixed to provide a blend of information required of brigade personnel having multiple responsibilities within an on-site emergency response team. With planning and a needs assessment, which the Academy provides as part of its service to the client, many of the incorporated subject areas can be provided in an off-campus format.

The Academy provides quality instruction through qualified personnel. We remain committed to providing customer service on schedule and maintain a constant level of service at a reasonable cost. The Academy asks that your organization consider our Industrial Services for your future training needs.

INCIPIENT AND STRUCTURAL FIRE BRIGADE TRAINING PROGRAMS

The following courses may be taken in a 40-hour format or individually, one at a time, dependent on prior scheduling commitments. Each module is designed to be eight hours in length, based upon 25 students participating in the field activities. Modules are often modified to meet the needs of those companies which seek additional or specialized training.

*This offering has been approved for EMS continuing education credit by the Mississippi Bureau of Emergency Medical Services.

Dates of Delivery: Contact Industrial Program Coordinator for dates of delivery and pricing.

MODULE I - *CHEMISTRY OF FIRE/PORTABLE FIRE EXTINGUISHERS*: Course Number IC 701

MODULE II - *RESCUE/SELF-CONTAINED BREATHING APPARATUS*: Course Number IC 702

MODULE III - *FIRE EQUIPMENT/FLAMMABLE LIQUIDS/FOAM*: Course Number IC 703

MODULE IV - *FIRE PROTECTION SYSTEMS/INTERIOR FIRE ATTACK*: Course Number IC 704

MODULE V - *FIRE BRIGADE STRUCTURE/STANDARDS REVIEW/ICS*: Course Number IC 705
